**China Briefing's Business Guide to the Greater Pearl River Delta**, 2004      Handbook of Contemporary Chinese Social Sciences Ping Hao, 2025-10-09 This Handbook presents thorough literature reviews and detailed analyses on the development of China's social sciences research since the reform and opening up in 1978. The handbook is comprised of 4 sections: politics and law, sociology and economics, demography and education, journalism studies and library science. Written and edited by leading scholars from Peking University, each volume critiques the research findings and provides guidance for future investigations of the respective field. Given its scope, the handbook will offer international academics an in-depth and up-to-date understanding of the development of Chinese scholars' research on Chinese social sciences over the past forty years.

**A Guide To The Top 100 Companies In China** Wenxian Zhang, Ilan Alon, 2010-03-22 Under the label of the socialist market economy with Chinese characteristics, the Chinese Government has made a firm commitment to economic reform, though still retaining tight political control. Thus, under conditions of liberal economic systems and autocratic rule, a new capitalist system is emerging in China; its top companies are managed by private entrepreneurs, government bodies, or a combination of both. This book, presented in an easily accessible format, fills an important gap in the growing literature on China in the global economy and provides a research reference tool on China's top companies. It offers a comprehensive directory listing of the Top 100 corporations in China, thus enhancing the research potential on China for students, researchers, and businesses. As a general reference guide to the Chinese economy, *A Guide to the Top 100 Companies in China* provides up-to-date and comprehensive coverage of the top Chinese enterprises. Corporations from Hong Kong and Taiwan that conduct significant business in China are also included.

Global Taiwan Suzanne Berger, Richard K. Lester, 2015-02-12 *Global Taiwan* examines the impact of globalization on the industry and economy of Taiwan since the spectacular growth of the 1990s. Drawing on hundreds of interviews with firms in Taiwan, China, the United States, Japan, Europe, and other areas, the book analyzes the strengths and weaknesses of Taiwanese firms at a time when they face new competition from powerful global leaders and new producers in China. The contributors cover topics of enormous importance for Taiwan as well as the rest of the world, including transformations in the international economy, technological advances that enabled modularization and fragmentation of the production system, contract manufacturers, regionalization, and links with Chinese industry. The book addresses such questions as: Can Taiwanese companies be maintained and expanded with the same corporate strategies and public policies as in the past? Can these strategies still work for other countries? If changes are required, what resources can be mobilized in the public and private sectors? As massive relocation of manufacturing and services moves plants and jobs to low-wage countries like China and India, what will remain at home in societies like Taiwan?
