Morphological and Syntactical Irregularities in the Book of Revelation

Laurențiu Moț, 2015-03-31 *Morphological and Syntactical Irregularities in the Book of Revelation* by Laurențiu Florentin Moț is an approach to the solecisms of Johannine Apocalypse from a Greek perspective. The work aims at demonstrating that in accord with Second Language Acquisition studies, Semitic transfer in Revelation is extremely rare. Most of its linguistic peculiarities can be explained within the context of the Greek language. Morphological and Syntactical Irregularities in the Book of Revelation is unique in several ways. First, it deals with the most comprehensive list of solecisms. Second, it treats grammatical irregularities in their own right, looking at their cause, explanation, and contribution to the interpretation of the text. Third, it is interdisciplinary, bringing together textual criticism, Greek linguistics, and NT exegesis.

The Gender Challenge of Hebrew Malka Muchnik, 2014-09-18 *The Gender Challenge of Hebrew* is the first book to delve in depth into the problem of gender representation over the 3 000 year history of the Hebrew language. By analyzing and illustrating the grammatical characteristics of gender in Biblical, Mishnaic, Medieval, and Modern Hebrew, Malka Muchnik reveals the social and cultural issues that they reflect. Gender discrimination in all periods of Hebrew is shown in sacred liturgical and literary texts as well as in the popular language spoken today. All of them testify to the problematic status of women who were traditionally excluded from religious studies and public activities and in recent decades have been struggling to change this practice. Malka Muchnik shows that linguistic change remains a challenging goal.

Usage-Based Studies in Modern Hebrew Ruth A. Berman, 2020-03-18 The goal of the volume is to shed fresh light on Modern Hebrew from perspectives aimed at readers interested in the domains of general linguistics, typology, and Semitic studies. Starting with chapters that provide background information on the evolution and sociolinguistic setting of the language, the bulk of the book is devoted to usage-based studies of the morphology, lexicon, and syntax of current Hebrew. Based primarily on original analyses of authentic spoken and online materials, these studies reflect varied theoretical frames of reference that are largely model neutral in approach. To this end, the book presents a functionally motivated dynamic approach to actual usage rather than providing strictly structuralist or formal characterizations of particular linguistic systems. Such a perspective is particularly important in the case of a language undergoing accelerated processes of change in which the gap between prescriptive dictates of the Hebrew Language Establishment and the actual usage of educated, literate but non-expert speaker-writers of current Hebrew is constantly on the rise.
