for instructors of organic chemistry to showcase evidence based methods and educational theories they have utilized in their
classrooms 2 build new and strengthen existing connections between educational researchers and practitioners and 3
highlight how people have used chemical education based research in their teaching practice There are places in the
literature dedicated for chemical education research CER however there is not a clear avenue for those that have changed
their teaching methods based on published CER and report their experiences Creating this article collection will foster

collaboration between chemical education researchers and teachers of organic chemistry This opportunity allows these instructors to share evidence based practices experiences challenges and innovative approaches from CER literature and beyond This Research Topic bridges discipline based education research and the scholarship of teaching and learning which will help advance organic chemistry education and improve student outcomes Catalogue of the J.
