walk into a shop. They each  
buy something for \$1 but  
they only spent \$3. How is  
that possible?**

# Genius Questions And Answers

**Rachel S Tattersall**

## Genius Questions And Answers:

**Green Genius's 101 Questions and Answers** Madhu Singh Sirohi, Sah Snigdha, 2008-01-01 The climate of the earth has changed many times before in the planet's 4.5 billion year old history. But today its temperature is rising faster than ever before driving many life forms to extinction. And scientists believe that this time it is humans who are to blame. Increase your green quotient and learn the answers to some less frequently asked questions on global warming. Join Green Genius as he takes you on a journey to discover how to save the earth.

**The Rosicrucian Philosophy in Questions and Answers** Max Heindel, 1922 *Difficult Questions Have Easy Answers* Atina Hseham, 2023-12-06 An inquiry made to obtain any information is known as an interrogation. While asking the person tries to get an answer that allows him to satisfy his doubts. The interviewers often ask simple questions in a very twisted fashion to confuse the candidates. Difficult questions' answers reflect the knowledge of the giver as well as his overall personality. For example: Which is heavier, a kilogram of feathers or 1000 grams of lead? Solution: Both the weights are equal. And: What happened in Kolkata yesterday from 8 to 9 o'clock? Solution: An hour had passed. These questions have a trick because they are framed in such a way that the answers seem simple but in reality they are not. It can be said that the questioners confuse the candidates as they hide their answers using rhetorical resources and various devices. In some cases the answer is found in the question itself but in secret. Tricky questions are also used for fun or as a mental activity of logical practice. Like a truck driver passing down a street in the wrong direction, some policemen saw him but they didn't say anything to him why? Solution: Because the truck driver was on foot. He shaves all day but still has a beard, who is he? Solution: Barber. Some months have thirty days and others thirty one but how many months have twenty eight? Solution: Every month has at least twenty eight days. Which object becomes wet when it dries? Solution: Towel. How do you draw a square with three lines? Solution: draw the square first and then draw three lines inside the square. Thus an answer to a tricky question can lead to confusion due to the confusion generated question. These types of questions are very specific to the areas in which people's knowledge or behavior is evaluated. Generally such difficult questions can be perceived as misleading or incorrect because something is being implied that is not in reality. However they can also be seen as methods whose precise purpose is to test the candidate and determine whether he or she is fully capable of answering the question that he or she is saying I know. In this way about five thousand questions and answers have been given in the present book which is equally useful for all competitive examinations.

**222 QI Answers to Your Quite Ingenious Questions** The QI Elves, 2022-11-01 EVERYTHING TO PLAY FOR A NEW BOOK BY QI ELVES JAMES HARKIN AND ANNA PTASZYNSKI IS AVAILABLE FOR PREORDER NOW The perfect gift for the incurably curious.
