to their Greco Roman social and cultural environment The volume addresses the mentalities reflected in moral philosophies political theories drama and epigraphy focusing on the discourse articulated in these sources Exploring the adoption of conservative mentalities the monograph advances a reading of the Pastoral Epistles based on ideology critique It also incorporates insights gained from research on the social world of earliest Christianity in particular on private associations Korinna Zamfir argues that the ecclesiology of the Pastoral Epistles presupposes the metaphorical use of oikos Theou and shows that in Greco Roman antiquity oikos denotes larger social entities like the religious association the polis and the cosmos The ekklesia is the oikos and polis of God As a consequence the Pastoral Epistles define roles and ministries based on the public private divide and on honor and shame mentality The theological and cosmic dimension of the household of God explains the essentialist understanding of social and ecclesial roles The author also tackles the contrast between discourse and ecclesial reality
