

Aercore 800. Improved for even better productivity.

Bring on the large greens and tees. With the changes we've made to the walk-behind Aercore 800, you'll be getting more done in less time. With a new 25-hp Kohler engine, the Aercore 800 delivers increased power to the coring head and traction drive systems. It also allows for lower engine rpms on entry and exit, increasing hole quality. And a mechanical transmission reduces hydraulics on your greens.

You'll also notice that the Aercore 800 now sports

standard drive tire core deflectors. They displace cores that are in the path of the drive tires, allowing for easier cleanup.

The new electrohydraulic lift lower system cuts the time to lift and lower the coring head in half, greatly improving entry and exit hole quality. It also allows the coring head to follow contours and undulations automatically. Best of all, this system uses only 2 quarts of Bio Hy-Gard™ hydraulic fluid.

Four gears on the Aercore 800 allow you to match productivity and speed.

Coring head between the tires follows contours and undulations automatically.

CORE DISPERSAL

New core deflectors move cores out of the path of the drive tires, making for easier cleanup and preventing cores from being matted down.

Narrow 31.5 in. width promotes consistent hole depth on undulations.

DEPTH

Easy to adjust depth gauge allows you to choose depth setting up to 1.5 inches.
