La Maladie De L'islam:

La maladie de l'islam Abdelwahab Meddeb, 2002 Selon A Meddeb la racine des maux actuels de l'islam est le ressentiment lié à sa culture et son histoire complexe la tension entre son esprit d'ouverture et le repli voire le rejet au sentiment très fort et souvent justifié que l'Occident impérialiste manque à la garde des musulmans d'un esprit de justice et de vérité

L'islam Et la Riforme Victor Segesvary, 2002 This important study brings to light a little known but essential moment in the relations between Islam and Christianity the history of the 1542 publication of the Quaran Koran in Latin in Venice and Basel and the controversy surrounding the emergence of this work in religious reform circles This research relates the origins of European attitudes of tolerance to the Reformation and the reformers specific interest in non traditional religious theology and secular philosophy The Koran proved to be a major though overlooked element in this movement toward cultural heterodoxy TEXT IN FRENCH WITH ENGLISH SUMMARIES , **The Star, the Cross, and the Crescent** Carine Bourget, 2011-12-19 The Star the Cross and the Crescent analyzes fiction films comics autobiographical narratives and essays by Francophone Arab writers whose Christian Accad Antaki Ch did Maalouf Jewish Albou Cixous El Maleh Memmi Muslim Bachi Bena ssa Benguigui Ben Jelloun Boudjedra Boudjellal Meddeb Mimouni and secular Sebbar backgrounds are emblematic of the diversity of the Francophone Arab world It examines how these writers represent the intertwining of religion and politics against the backdrop of the current international political context and the resurgence of religion Focusing on a series of disputes commonly framed in religious terms with Islam as the common denominator for all the Arab Israeli conflict the Lebanese and the Algerian civil wars the affair of the Muslim headscarf in France and 9 11 this book questions the effectiveness of the Francophone studies model in providing insights into the complexity of the Islamic Revival The study concludes by unpacking the influence of politics on the translation of these works in the U S It brings heightened awareness to the modalities according to which a creative work can serve as a cultural mediator *Cultural Theory after 9/11* Robert Doran, 2010-09-01 This collection of material seeks to interpret the events of September 11 2001 from the perspective of cultural theory that is from the perspective of anthropological and social forces that motivate human beings and give meaning to their thoughts actions and feelings Though contributors to this volume work within various disciplines their approach is necessarily holistic because of the very nature of the event which resonates on many levels and in diverse spheres of human activity Clearly the perception of who one's enemy is has a cultural and psychological impact that goes far beyond the superficial media representations consumed on a daily basis the very curriculum of American universities has been altered as a result of the 9 11 attacks and this will have profound and far reaching effects Secularism, Islam and public intellectuals in contemporary France Nadia Kiwan, 2019-11-30 This book examines the thought of Abdennour Bidar Malek Chebel Le la Bab s Abdelwahab Meddeb and Dounia Bouzar In doing so it investigates how these five figures all contribute in their diverse and varying ways to broader understandings of the relationship between Islam and secularism in

 in Yale French Studies this collection of essays examines poetry in French by authors from across the Maghreb Although in recent years Maghrebi literature written in French has enjoyed increased critical attention less attention has been paid specifically to the genre of poetry The sixteen essays collected in this special issue of Yale French Studies show how the poem provides a uniquely privileged perspective from which to examine questions relating to aesthetics linguistics philosophy history autobiography gender the visual arts colonial and postcolonial society and politics and issues relating to the post Arab Spring **Je pense, donc je dis ?** Nadia Geerts, Sam Touzani, 2015-05-21 La liberté d'expression tout le monde est pour Et pourtant Pourtant ces dernières années de Salman Rushdie aux caricatures de Mahomet publiées par Charlie Hebdo on n'en finit pas de la questionner Peut-on tout dire Et dans quel but S'agit-il de choquer pour le plaisir de choquer en s'attaquant ainsi ce que d'aucuns considèrent comme sacré Ou des enjeux plus fondamentaux se cachent-ils derrière des productions artistiques en apparence futiles Pour aborder ces questions en particulier avec des jeunes parents et enseignants sont bien souvent d'unis Aussi les auteurs le comédien Sam Touzani et l'enseignante Nadia Geerts ont-ils voulu aborder ces questions en s'adressant directement aux jeunes Sans tabou en langage clair en partant de supports visuels suscitant le débat

Postcolonial Fiction and Sacred Scripture Sura Qadiri, 2017-12-02 Francophone writers from North Africa and the Middle East often choose to write within a sacred context sometimes engaging directly with Islamist rhetoric Novelists like Tahar Ben Jelloun Morocco Assia Djebar Algeria and Amin Maalouf Lebanon revisit scripture as a way to convey nuances which they believe have been stamped out by monolithic religious world views For them fiction offers a way to break away from limited exegetical horizons but to remain within the faith Others though would go further moving away from all religious practice not just the excessively political or violent Tunisian writers Abdelwahab Meddeb and Fethi Benslama propose that all literature is of its very nature outside of religion and that its proliferation will ultimately lead to a secular society Qadiri explores this wide spectrum of approaches not only by drawing comparison with metropolitan French thought but also to assess its potential impact at a time of radical change in the Islamic world Sura Qadiri is a research associate in the French

seems to take place in scholarship worldwide Operated mainly by what is referred to as postcolonial studies this shift turned literary criticism and cultural studies into the site where a sense of literature can be envisioned that is not at all universalist or reflecting the hegemonic temptations of the new world order It seeks to present a patchwork of minor literatures in the sense that besides the major literatures languages there are myriads of minor voices that express dissimilarity oftentimes under the umbrella of those major languages and literatures themselves
