## La Tyrannie Des Droits:

La tyrannie des droits Brewster Kneen, 2014      Lexicon Of Human Rights / Les Définitions des Droits de l'Homme Cédric Viale, 2008-10-31 This volume contains terms often found in international human rights instruments together with clear authentic objective and easily understandable definitions of them Human rights are so fundamental and so important for everyone that all human rights documents should be understood by anyone old or young educated or uneducated expert or non expert Yet many human rights conventions declarations instruments and volumes and papers are extremely hard to comprehend or are easily misunderstood because certain expressions and terms are not clearly defined or are written in such a way that only those familiar with UN jargon can understand This publication is a useful tool for those who face such difficulty in understanding UN human rights documents and other texts The volume is easy to use yet rich in detail and will be an indispensable tool for practitioners researchers and students of human rights law      *Droit humanitaire et droits de l'homme* A. Calogeropoulos-Stratis, 2024-12-23      *Vattel's International Law from a XXIst Century Perspective / Le Droit International de Vattel vu du XXIe Siècle* Vincent Chetail, Peter Haggemacher, 2011-05-23 No other scholar has so deeply influenced the development of international law or shaped the doctrinal debates as Vattel More than 250 years after its publication his Law of Nations has remained the most frequently quoted treatise of international law Vattel's International Law from a XXIst Century Perspective explores the reasons behind the extraordinary authority of Vattel and analyses its continuing relevance for thinking and understanding contemporary international law It gathers the contributions from well known experts of international law and history for the purpose of evaluating the Law of Nations from a XXIst century perspective The multiple facets of Vattel's thinking are apprehended through a wide ranging and comprehensive analysis respectively devoted to the international system the sources of international law the subjects of international law the law of peace and the law of war      ,      **The Limits of Human Rights** Bardo Fassbender, Knut Traisbach, 2019 The continuous expansion of human rights can often appear to be positive yet it provokes criticism This volume argues against the internationalisation of human rights proving the world is moving from bilateralism to community interests stating contentious supervision evaluation and substitution are far more common than genuine cooperation      Les Principes Sociologiques Du Droit Public Raoul de La Grasserie, 1911      *Le droit des gens, ou, Principes de la loi naturelle* Emer de Vattel, 1916      **The Roots of International Law / Les fondements du droit international** , 2013-11-29 This collection of essays gathers contributions from leading international lawyers from different countries generations and angles with the aim of highlighting the multifaceted history of international law This volume questions and analyses the origins and foundations of the international legal system A particular attention is devoted to Hugo Grotius as one of the founding fathers of the law of nations Several contributions further question the positivist tradition initiated by Vattel and endorsed by scholars of the 19th Century This immersion in the intellectual origins of international law is enriched by an inquiry into the practice of the law of

nations including its main patterns and changing evolution as well as the role of non western traditions and the impact of colonization Le present ouvrage réunit les contributions de juristes internationaux reconnus en vue de clarifier les multiples facettes de l'histoire du droit international public L'ouvrage analyse et questionne les origines et les fondements de l'ordre juridique international Une attention toute particulière est dédiée à Hugo Grotius l'un des premiers fondateurs du droit international D'autres contributions questionnent également la tradition positiviste initiée par Vattel et confortée par la doctrine du 19<sup>ème</sup> siècle Cette immersion dans les origines doctrinales du système juridique international est enrichie par l'étude de la pratique du droit international public son évolution ainsi que le rôle des traditions non occidentales et l'impact de la colonisation
