The Subversion of Christianity Jacques Ellul, 2011-06-02 Pointing to the many contradictions between the Bible and the practice of the church Jacques Ellul asserts in this provocative and stimulating book that what we today call Christianity is actually far removed from the revelation of God Successive generations have reinterpreted Scripture and modeled it after their own cultures thus moving society further from the truth of the original gospel The church also perverted the gospel message for instead of simply doing away with pagan practice and belief it reconstituted the sacred set up its own religious forms and thus resacralized the world Ellul develops several areas in which this perversion is most obvious including the church s emphasis on moralism and its teaching in the political sphere The heart of the problem he says is that we have not accepted the fact that Christianity is a scandal we attempt to make it acceptable and easy and thus pervert its true message Ultimately however Ellul remains hopeful For in spite of all that has been done to subvert the message of God the Holy Spirit continues to move in the world Christianity writes Ellul never carries the day decisively against Christ

Jacques Ellul and the Bible Jacob Marques Rollison, 2022-05-26 The hermeneutic contribution of the French theologian and sociologist Jacques Ellul is given new prominence in this striking collection of essays revealing him to be one of the twentieth century's most creative and insightful interpreters of the Bible. With a breadth of contributors ranging from established biblical scholars and theologians to pastoral practitioners from top Ellul scholars to emerging voices and including six first time English translations of Ellul's own articles this volume not only provides a detailed overview of Ellul's biblical approach but also constitutes a crucial moment in Ellul's theological reception. The essays gathered here represent a clear demonstration that the full potential of Ellul's theological interpretation of Scripture to rejuvenate and reconfigure contemporary biblical hermeneutics has yet to be seen. **Technique, Discourse, and Consciousness** David

Lovekin, 2022-05-19 This study examines the French thinker Jacques Ellul 1912-1994 and his historical biblical and social analyses of how technology manipulates and impoverishes modern thought, culture and language. In the spirit of Georg Hegel and Ernst Cassirer, Ellul explores how technology begins in myths, stories and religion, advances to tools and then develops into data, algorithms and abstract systems which are detached from human bodies and communities. Efficiency then becomes an absolute in all areas of human life and the mentality of technique becomes lost in its creations. These modern symbols posing as ultimate human goods and values are denigrated by technique, leaving humanity awash in clichés in groundless social media and in blathering slogans that sustain the illusion that politics and culture have now become

Anarcho-primitivism, *What Are You Doing About It?* David W. Gill, 2022-09-23 In his memoir *What Are You Doing About It*, ethicist and activist David W. Gill takes readers on an exciting inside tour of the academic, cultural, religious and political landscape in which he has lived and worked for the past several decades. From Berkeley to Bordeaux, Chicago to Boston, from the business trenches and the local church to the seminary and the graduate school of business, from marching in the streets to the writer's study, from entrepreneurial leadership to institutional challenge, Gill never wavered in his mission to promote the ethical insights and values of Jesus and Scripture in the workplace as much as the churchplace. This is a story to inspire a new generation of thoughtful activists. War and Law in the Islamic World Matthias

Vanhullebusch, 2015-06-05 A three part investigation on the origins and evolving roles that Islamic law and international humanitarian law have played in regulating conflict and violence. *War and Law in the Islamic World* brings to light legal and policy complexities that plague modern day armed conflict in the region. **HISTORY & MATHEMATICS** Leonid

Grinin, Andrey Korotayev, The present Yearbook which is the eighth in the series is subtitled *Investigating Past and Future*. It is devoted to three problems: the analysis of the aspects of past and present in the light of formal methods, singularity, i.e. forthcoming abrupt shift in development, the approach or even presence of which we already feel; the aspects of the cosmic future of human race. This issue consists of four sections. I. History. Technologies. Politics and Mathematics includes five articles on different directions of factual or theoretical content: history, technology, politics and studies covering past, present

and future II Singularity includes two contributions and is devoted to a rather interesting phenomenon of singularity They suggest that indeed the hyperbolic planetary evolutionary trend observed since the origins of life on the Earth cannot continue beyond the forthcoming singularity whereas the post singular evolutionary trend should be qualitatively different from what has been observed before III Beyond the Earth also consists of two very different articles but they are united by their interest in the future of human race in terms of their interaction with the space IV Reviews and Notes We hope that this issue will be interesting and useful both for historians and mathematicians as well as for all those dealing with various social and natural sciences

Volume 11, Tome II: Kierkegaard's Influence on Philosophy Jon Stewart, 2016-12-05 Kierkegaard's relation to the field of philosophy is a particularly complex and disputed one He rejected the model of philosophical inquiry that was mainstream in his day and was careful to have his pseudonymous authors repeatedly disassociate themselves from philosophy But although it seems clear that Kierkegaard never regarded himself as a philosopher there can be no doubt that his writings contain philosophical ideas and insights and have been profoundly influential in a number of different philosophical traditions The tomes in this volume seek to document the different traditions of the philosophical reception of Kierkegaard's thought and the articles demonstrate the reach of Kierkegaard's writings in philosophical contexts that were often different from his own The present volume attempts to document these different traditions of the philosophical reception of Kierkegaard's thought The articles featured here aim to demonstrate the vast reach of Kierkegaard's writings in philosophical contexts that were often quite different from his own Tome II is dedicated to exploring Kierkegaard's influence on Francophone philosophy The French intellectual tradition squares well with Kierkegaard's eclectic profile since its leading figures are often difficult to classify unambiguously as philosophers theologians literary critics or simply writers Kierkegaard's thinking was highly influential for many generations of French philosophers right up to the present It was not just existentialism that tried to co-opt Kierkegaard for its own purposes he has also been influential in the context of almost every modern school of French thought phenomenology feminism structuralism post structuralism semiotics and deconstruction

Islam and Dhimmitude Bat Ye'or, 2002 Dhimmitude is thus discussed from the perspective of Muslim theory and also in regard to divergent Christian attitudes to Jews and Zionism **BOOK JACKET**

Religion at Play Andre Droogers, 2015-03-26 Is a powerful position a guarantee that a religion will continue Does God take sides in religious power struggles Can God survive religious exclusivity and diversity Is God migrating from out there to in here Is religion sustainable in the long run In seeking answers to these questions this book explores the possibilities afforded by playful religion Religion has playful origins but this aspect is forgotten as soon as institutional power becomes self-serving instead of subservient Power changes the very essence of religion Virtually all religions are distorted versions of a playful original Institutionalization is religion's curse not its blessing Apparent success hides the failure of religion to be faithful to its original intent This book helps find the way back from bordering to inclusivity and openness

Political Illusion and Reality David W. Gill, David

Lovekin,2018-09-27 Are all governments east and west Muslim and secular authoritarian and constitutional Republican and Democratic fundamentally the same all of them under the extraordinary growing power of technique and bureaucracy Is all politics then just an illusory affair of lies deception propaganda partisan passions and chaos on the surface of government and party In his vast and penetrating writings Bordeaux sociologist Jacques Ellul 1912 1994 points in those directions Political Illusion and Reality is a collection of twenty three essays on Ellul s political thought Veteran as well as younger Ellul scholars political leaders activists and pastors discuss aspects of Ellul s thought as they relate to their own fields of study and political experience Beginning with his 1936 essay Fascism Son of Liberalism translated and published here in English for the first time Ellul and these authors will provoke readers to think some new thoughts about politics and government and think more deeply about the main issues we face in our politically divided and troubled times *Jacques Ellul and the Technological Society in the 21st Century* Helena M. Jerónimo, José Luís García, Carl Mitcham, 2013-07-08 This volume rethinks the work of Jacques Ellul 1912 1994 on the centenary of his birth by presenting an overview of the current debates based on Ellul s insights As one of the most significant twentieth century thinkers about technology Ellul was among the first thinkers to realize the importance of topics such as globalization terrorism communication technologies and ecology and study them from a technological perspective The book is divided into three sections The first discusses Ellul s diagnosis of modern society and addresses the reception of his work on the technological society the notion of efficiency the process of symbolization de symbolization and ecology The second analyzes communicational and cultural problems as well as threats and trends in early twenty first century societies Many of the issues Ellul saw as crucial such as energy propaganda applied life sciences and communication continue to be so In fact they have grown exponentially on a global scale producing new forms of risk Essays in the final section examine the duality of reason and revelation They pursue an understanding of Ellul in terms of the depth of experience and the traditions of human knowledge which is to say on the one hand the experience of the human being as contained in the rationalist sociological and philosophical traditions On the other hand there are the transcendent roots of human existence as well as revealed knowledge in the mystical and religious traditions The meeting of these two traditions enables us to look at Ellul s work as a whole but above all it opens up a space for examining religious life in the technological society **Theopoetics of the Word**, 2014-08-07 Gabriel Vahanian s final work Theopoetics of the Word weaves together Christian theology continental philosophy and cultural studies to present a new theology of language and technology for the 21st century **Kierkegaard and the Question Concerning Technology** Christopher B. Barnett, 2019-08-22 Over the last several decades technology has emerged as an important area of interest for both philosophers and theologians Yet despite his status as one of modernity s seminal thinkers S ren Kierkegaard is not often seen as one who contributed to the field Kierkegaard and the Question Concerning Technology argues otherwise Christopher B Barnett shows that many of Kierkegaard s criticisms of the present age relate to the increasing dominance of technology in

the West and he puts Kierkegaard's thought in conversation with subsequent thinkers who grappled with technological issues from Martin Heidegger to Thomas Merton Barnett shows that Kierkegaard's writing with its marked emphases on personal upbuilding stands as a place where deeper non technical modes of thinking are both commended and nurtured In doing so Barnett presents a Kierkegaard who remains relevant perhaps all too relevant in today's digital age **Jacques Ellul** Jacob E. Van Vleet, Jacob Marques Rollison, 2020-04-13 Jacques Ellul 1912-1994 was Professor of the History and Sociology of Institutions at the University of Bordeaux A sociologist historian and Protestant lay theologian Ellul is primarily known for his writings on technology propaganda and Christian anarchism He influenced a wide array of thinkers including Ivan Illich William Stringfellow Thomas Merton Paul Virilio and Neil Postman In this book Jacob Van Vleet and Jacob Marques Rollison guide readers through Ellul's most influential theological and sociological writings By understanding Ellul's primary works readers will be able to clearly grasp his social theory and theological ethics profiting from his deep insight and prophetic wisdom **The Development Dictionary** Wolfgang Sachs, 1992 In this pioneering collection some of the world's most eminent critics of development review the key concepts of the development discourse in the post war era Each essay examines one concept from a historical and anthropological point of view and highlights its particular bias Exposing their historical obsolescence and intellectual sterility the authors call for a bidding farewell to the whole Eurocentric development idea This is urgently needed they argue in order to liberate people's minds in both North and South for bold responses to the environmental and ethical challenges now confronting humanity These essays are an invitation to experts grassroots movements and students of development to recognize the tainted glasses they put on whenever they participate in the development discourse L'Église émergente Gabriel Monet, 2014 L'Eglise est en continuelle mergence Parce qu'elle a vocation naître nouveau dans chaque nouveau contexte l'où elle se retrouve en situation de postchrétienté l'Eglise doit relever frais nouveaux le double défi de la fidélité à l'Evangile et de la pertinence culturelle Dans un premier temps cette thèse explore les nouvelles formes d'Eglises qui cherchent relever ce défi et qui voient le jour depuis quelques années et ont été identifiées sous l'appellation d'Eglises mergentes Se développant dans les pays occidentaux au sein ou en marge de tout le spectre des champs confessionnels ces communautés s'essayent pratiquer la voie de Jésus au sein des cultures postmodernes Elles cherchent donc retrouver leurs lieux et leur temps Centrés sur la mission sur le développement communautaire ou sur l'innovation liturgique ces Eglises proposent des approches variées mais ont néanmoins des lignes de force communes Elles ouvrent la voie une réflexion plus large sur certains enjeux ecclésiologiques contemporains qui constitue la deuxième partie de cette étude Faisant notamment dialoguer les auteurs du mouvement des Eglises mergentes avec le théologien missionnaire anglais Lesslie Newbigin se dessine une Eglise missionnelle incarnationnelle et expérimentielle Figures d'apocalypses dans l'oeuvre de Michel Tremblay Marc Arino, 2007 Cet ouvrage cherche montrer comment Michel Tremblay auteur phare du Québec des quarante dernières années transforme au fil de son œuvre le mythe biblique de l'Apocalypse en un mythe littéraire

personnel selon trois modalités La première de ces modalités relève du théologique et correspond à la subversion de l'Incarnation figure majeure du christianisme Le sacrifice christique et le salut des Justes qu'il entraîne fait ainsi place dans l'œuvre tremblayenne à la représentation de la destinée d'une famille québécoise contemporaine et de personnages martyrs ou messianiques infondus une transcendance d'inspiration païenne La seconde modalité relève de l'historique et correspond à la mise en œuvre d'une dialectique entre la fin d'un temps et l'émergence d'un autre conséquence d'une crise survenue dans l'Histoire L'exploitation de la veine apocalyptique renvoie ainsi chez l'écrivain à la rupture pistologique entre la grande noirceur instaurée par Maurice Duplessis à la fin de la seconde guerre mondiale et l'espérance suscitée au Québec par la Révolution tranquille à partir des années soixante Enfin la troisième modalité relève de la mise en abyme de la symbolique apocalyptique de l'ensemble de l'œuvre Les productions des personnages artistes tremblayens peuvent en effet être assimilées à de multiples apocalypses qui doublent l'œuvre même et qui dévoilent les mystères de l'origine et de la fin du Monde de l'auteur Par sa dimension religieuse historique et esthétique l'œuvre de Michel Tremblay acquiert ainsi le statut de Livre total nouvelle Bible de l'Humanité qui ne cesse de remettre en question la foi possible en une transcendance en la connaissance en l'homme et en l'art
