La Trahison Des Clercs:

The Betrayal of the Intellectuals Julien Benda, 1955 An incisive and devastating criticism of intellectuals who have failed to accept their responsibility as leaders in society and have allowed themselves to become enmeshed in disputes and soiled by popular prejudices The Political Responsibility of Intellectuals Ian MacLean, Alan Montefiore, Peter Winch, 1990-12-13 Addresses the many problems in defining the relationship of intellectuals to the society in which they live The contributors come from a wide variety of disciplines and are drawn from both America and Eastern and Western Europe

La Trahison Des Clercs Julien Benda, 1924 *The Treason of the Intellectuals* Julien Benda, 1928 **The Treason of the Intellectuals** Julien Benda, 1969 **La Trahison Des Clercs**, 1975 **La trahison des clercs** Julien Benda, 1927 Les hommes dont la fonction est de défendre les valeurs éternelles et de résister comme la justice et la raison que j'appelle les clercs ont trahi cette fonction au profit d'intérêts pratiques Les mises en garde de Benda pouvaient en 1927 au nom du réalisme passer pour peu fondées Aujourd'hui l'ouvrage apparaît comme tragiquement prophétique Les thèses de Benda parce qu'elles se réfèrent à l'universel ont triomphé de la double preuve du temps et de l'histoire À la mort de Benda en 1956 Jean Daniel résuma le sentiment général en lui appliquant avec plus de justesse même le mot de Sartre la mort de Gide Sa vigilance va me manquer *Being and Having* Gabriel Marcel, 2011-03-23 I hope that this book will be widely read and I especially commend it to four classes of persons I For myself I have come across nothing more important than M Marcel's writings here and elsewhere on the problem of metaphysics I say problem advisedly for we are all of us these days in the end puzzled as to what exactly metaphysics is The strict Thomist has his answer so has the positivist so too the Biblical theologian who is much too ready to find in the decay of ontology an argument for the authenticity of Biblical perspectives M Marcel was trained in the tradition of idealism and he knew the influence both of Bergson and of W E Hocking His conversation with himself certainly betrays their influences but it is of far wider significance Professor Ayer and Dr E L Mascall have their answer to the question what ontology is they have their formulae Marcel probes beneath these answers for him ontology is much more than a body of doctrine It is the intellectual expression of the human situation what is expressed in the syllogisms of for instance P re Garrigou Lagrange is valid only in so far as it catches and summarises the very being of man and the universe as that being is lived through and met with by man in his pilgrimage through life I find as I read M Marcel that the frontiers are blurred reflection metaphysics spirituality And that is the strength of his seemingly inconsequent method In a way he is too wise to suppose that the arguments of the philosophia perennis are enough in their abstract form to convince a man they only carry conviction in relation to a whole experience of life of which they are the expression The issues between the Thomist the positivist the idealist are not issues simply of doctrine but of life and to see what they are one must probe stretching language beyond the frontiers of poetry somehow to convey the issues as things through which men live 2 The book should be studied closely by the moralist whether he be philosopher or moral theologian Where some of the most

familiar ethical ideas are concerned Marcel reminds us of their inside when we so often in our discussion think simply of their outside What is a promise We have our answer put our formula which permits us to go on with the discussion of our obligations to keep the promises we have made and so on We don't wait to probe I find myself inevitably using that word probe again and again in connection with M Marcel for what he does is to probe the unsuspected profundities of the familiar Most professional students of ethics are morally philistine men who give little time to penetrating the inside of the ideas they are handling And there Marcel pulls them up short 3 The book should be widely read by the many Christian fellow travellers of today those who follow as it were afar off the Christian way without themselves coming yet to the point of an act of faith in the Crucified Its very incompleteness will respond to their groping anxiety and it will enrich their vision of life And this it can do because it eschews dogmatic exposition seeking rather to shew the inside of the truly Christian way of life Fidelity hope charity mystery these are fundamental categories of the Christian way and of all these Marcel has much to say which is in every way fresh and yet at the same time rooted in the tradition of Catholic Christianity The reader of such a work as Albert Camus *La Peste* with its preoccupation with the problem of an atheistic sanctity will understand M Marcel In a way he challenges the possibility of Camus' vision and he does so not on dogmatic grounds but by an analysis of holiness and goodness which shews indirectly their inseparability from acknowledgment of the all embracing mystery of God An age which has known evil as ours has and does still know it is inevitably interested in goodness and it is with goodness as something inevitably issuing out of God because a gift from him that Marcel's studies deal 4 And lastly I commend this book because at a time when minuteness and subtlety of mind are too often the prerogatives of the light heartedly destructive he reminds us that a true minuteness and a true intellectual subtlety are rooted in humility and purity of heart and manifest the soil in which they are nourished by graciousness whose charm none can escape and a strength of argument which none can break

Wardhaugh,2017-07-05 The crises and conflicts of mid century Europe highlight the fragility of individual life and commitment Yet this was a time at which individuals engaged in politics on an unprecedented scale whether in movements parties and street politics through culture or by the choices confronted in war and occupation Focusing on France and bringing together historians of politics literature philosophy art and film this volume sheds new light on the imagination and experience of the political individual in the age of the masses From a controversial art exhibition on Algeria to the private diary of a Jewish lawyer in Occupied Paris these case studies illuminate the specificities of French ideas and experiences in mid century Europe They also contribute to a deeper understanding of memory agency and responsibility in times of crisis

Dalrymple,2016-11-08 Can any of us entirely banish from our hearts and minds grave misgivings about the condition of the culture we now inhabit Expressions of those misgivings are mostly unheard in public forums ignored in the dominant media and if noticed at all dismissed by state supported bureaucracies and commercial vested interests To have any chance of gaining attention they must resolve themselves into coherent forms We need to clarify our perceptions of the things that trouble us by articulating and developing our thoughts about them That is we are in need of serious criticism serious criticism aesthetic social and political which is notably lacking in the contemporary world especially in places readily available to the educated non specialist such as the quality weekend newspapers and especially perhaps in relation to the visual arts The pieces collected in this volume are not presented as amounting to an overall account or theory of our cultural condition They are offered merely as examples of serious criticism of what we need if we are to begin to think more profitably about our condition daring in defiance of contemporary dogmatism to make the necessary judgements of value without which our culture will continue to disintegrate **Reality Bytes** Bart Lootsma,2016-11-21 Reality Bytes is a collection of essays by Bart Lootsma written in the years from 1998 to 2009 Byte is a unit of digital information used in information technology and most commonly consists of eight bits Reality Bytes is also the title of an essay by Bart Lootsma in which he investigates the relationship between society and architects and town planners Bart Lootsma Professor of Architecture as well as

A Life Composed André Schüller, 2002 The modern literary critic T S Eliot wrote in 1929 must be an experimenter outside of what you might at first consider his own province there is no literary problem which does not lead us irresistibly to larger problems This book follows Eliot s principle and situates his literary and critical work in a wide context that reveals manifold links between aesthetics ethics politics and epistemology the historical context of early twentieth century idealism vitalism and pragmatism especially the intensely political Bergsonian controversy and the modern context of the philosophies of Charles Taylor Michel Foucault and Richard Rorty Knowledge it argues was verbalised in the modernist age individualised into the act of knowing an act with motives and goals and thus introduced into the realm of ethics a process central to twentieth century thought Eliot s poems especially constructed as a life composed a literary lifetime linking composition and composure ponder the virtue of precision the sins of pride and mental sloth the temptation of prejudice and the need for conviction Decidedly tentative Eliot s poems solve the problem of morally significant literature In a century of suspicion they ask the crucial question of where one should start to rely
