QUEBEC, Birthplace of New France David Mendel, 2012-04-03T00:00:00-04:00 A Visual Exploration of Quebec City This book is the second in a series of four volumes that will provide a visual exploration of Quebec City its history and its architecture While the first volume Quebec World Heritage City focused on the upper town this one Quebec Birthplace of New France takes us down to the lower town where the city began early in the 17th century with the establishment of a little trading post by the shore of the St Lawrence River The evolution of the lower town has always been tied to the rising and falling fortunes of Quebec as a maritime city Over the centuries the needs of the port determined not only the size and scale of the buildings in the sector but even the amount of land available for construction A brief outline of the history of each major location leads to a step by step exploration in which general exterior and interior views are followed by photographs of selected objects symbols and architectural elements Texts have been kept deliberately short in order to provide as much space as possible for historic maps images and especially Luc Antoine Couturier s remarkable photographs As we will see a wide variety of historic buildings and structures have survived in the lower town Evidence of Quebec s evolution as a port city remains visible at almost every corner waiting to be discovered by the observant eye It is a story that is told in brick and stone

The Quebec Law Digest Charles Henry Stephens, 1891 Le province de Quebec André Beaulieu, W.F.E. Morley, Benôit Bernier, Agathe Garon, 1971-12-15 There is no doubt that local and regional history considered by many as a kind of minor historical study has a pressing need for a systematic inventory of its resources This collection shows the durability the vividness and the astonishing productivity of a sector of history which is the stronghold of the history lover rather than the professional historian The nature and content of each book determines its selection For each book included the compilers have weighed its contribution to local history and regional history rather than the style in which it is written narrative memoir descriptive study or novel It is this criterion of selection that has permitted the retention of several general histories of a varied nature Bouchette Charlevoix Nicholas Denys La Potherie Lescarbot Hanotau Sulte etc where local and regional life takes on a major importance for reasons of order in history method or quite simply because local life is the principal object of the study itself The editors have also retained certain works those of George W Brown Arthur Buies George M Grant Blodwen Davies etc because they are primarily descriptive and contain numerous elements in which local history blends with the manners and customs of the inhabitants of certain regions This bibliography is designed primarily for historiographers who have until now paid little attention to local regional or parochial history It will also be invaluable for librarians who suffer from the numerous difficulties involved in the classification of such works Since 1950 all works published in Canada are by virtue of the book deposit law provided to the National Library of Canada and recorded in Canadiana
