Language of Recovery Robert Rodgers, Robert Rodgers, .,2014-12-22 The words we use in everyday language have two possible outcomes. They either support recovery from disease and illness or they sustain it. Language of Recovery identifies the specific words and phrases we use in everyday speech that undermine recovery from disease. Better yet, it celebrates the language that fosters and nurtures recovery. The true challenge, as I see it, is this: We are not even aware that our thoughts and beliefs are undermining our best intentions to recover from a chronic illness. We say to ourselves and to others that we are determined to get well, but a devious process is at work in our subconscious which undermines this intention. How do we get our subconscious thinking to reveal itself? After all, it is not conscious. The solution is to identify specific words that we use in everyday language that do reveal our true beliefs and thoughts. For example, have you ever said to someone else that you hope to recover from your illness or that your wish is to see that your symptoms do not get worse? This language limits the extent to which you believe you have any chance to recover. Language of Recovery supports the journey back to health and wellness by illustrating language that undermines our best intentions to recover from a chronic illness. Once language is in concert with our true intentions, a successful journey down the road to recovery can be launched. **University on Watch** J Peters,2019-03-21 University on Watch is a story about youthful hope yearning for more and triumph over failures and mistakes beyond our own control and doing. The book is a native story to New York state but couldn't be more otherworldly at times, supernatural and grippingly suspenseful as the book unfolds. The crisis in the academy or New London University is one that goes to the very epicenter of higher learning and education. This crisis is also conjectured, created by the mind of Jacques Peters, a student rejected from the graduate school in English at New London University. Jacques Peters will do everything in his power to uncover the reason for his rejection from graduate school. Meta-power, a word Jacques Peters believes is behind the root of power in the English department and the reason for his rejection becomes the point of departure for a quest into the very root of power in New London. During this quest, Jacques stops at nothing to hold university officials, department offices, and

the community accountable for terminating his education prematurely Mr Peters will travel across New York State visiting friends loved ones and old schoolmates from his High School days at Wales Through his journey Jacques will undergo another transformation while contesting the admission decision to the very end putting his health and life at risk forever **Healing**
