very high interest rate Bad credit will see you pay a higher mortgage amount or worse your mortgage application will be declined Just because you are not currently interested in buying a house does not mean that your credit does not matter Landlords will in most cases consult your credit before renting you a house or apartment Your lease is considered a loan You require a loan to purchase a car unless you have the full amount at hand Your credit score affects the loan amount and interest rate and whether or not you will be given the loan in the first place With excellent credit you will qualify for a higher loan amount and the interest rate will be lower A poor credit score translates to limited options Not many lenders will be ready to finance you and the few that will be willing might charge a very high interest rate
