

Active Engagement:

I will as students to study the log on the projector again and look for any patterns. They will turn and talk to their partner about any of these patterns that they see. I will ask students what they noticed with their partners. The students will then pull up their own reading logs and look for any patterns in their own logs. I will then ask the students to tell me some things they notice about themselves as readers. I will tell the readers that monitoring progress toward goals is how people become experts.

Questions:

1. What is a reading goal you can make for yourself from the data in your reading log?
2. What have you been doing well as a reader and what improvements do you need to make to become a better reader?
3. What patterns do you see in your own reading log?
4. Why are these patterns in your reading logs occurring?

Class Activity:

Students will consider one goal from studying their reading logs. They will write down this goal in their reader's notebook. After they have written this goal down (at the top) they will return to their seat and begin to read independently keeping this goal in mind. They will be told that over the next few days they will come up with other goals but today they will focus on the one goal.

Assessment:

The students will be informally assessed as I walk around the classroom during their independent reading time. I will view the goal that they have written in their readers notebooks. I will also take note of the independent reading book they have chosen to make sure it is a just right book for them.

Small Group/Independent Work and Learning Tasks (Differentiated)

Below Level Activity:

If the student is struggling with analyzing their reading log data, I will then help them to do this. If they are having trouble thinking of a reading goal for themselves I will have them look at their reading log and see what they notice about the data that is there and then work with them to come up with a reading goal independently.

On Level Activity:

If the student seems to be independently analyzing their reading log and coming up with their own reading goal from the data on their reading log, this reader will keep their goal in mind during their independent reading time and figure out how to work to achieve this goal in the future.

Above Level Activity:

If the student analyzes their reading log and sees patterns in their reading logs that we have not discussed in the mini lesson, this student will set a goal for themselves that we have not talked about in the mini lesson.

Mini-Workshop Teaching: Look back at the Post-it you put in your book when you started reading and discuss if you are on track for reading about 20 pages in half an hour.

Share: Prior to the end of Reading Workshop I will observe their reading goal and I will ask some of the students to share these goals with the class. As I am assessing their reading goals I will take note of any goals that we have not mentioned and try to call on these students. I will call on some of these students to share with the class goals that they have determined for themselves.

Homework:

As you read for 20 minutes keep your reading goal in mind and record your reading onto your reading log.
