Matt Roush It Report:

The Metropolitan Revolution Bruce Katz, Jennifer Bradley, 2013-06-19 Across the US cities and metropolitan areas are facing huge economic and competitive challenges that Washington won't or can't solve. The good news is that networks of metropolitan leaders mayors, business and labor leaders, educators and philanthropists are stepping up and powering the nation forward. These state and local leaders are doing the hard work to grow more jobs and make their communities more prosperous and they're investing in infrastructure, making manufacturing a priority and equipping workers with the skills they need. In *The Metropolitan Revolution*, Bruce Katz and Jennifer Bradley highlight success stories and the people behind them. New York City Efforts are under way to diversify the city's vast economy. Portland is selling the sustainability solutions it has perfected to other cities around the world. Northeast Ohio Groups are using industrial age skills to invent new twenty-first century materials, tools and processes. Houston Modern settlement house helps immigrants climb the employment ladder. Miami Innovators are forging strong ties with Brazil and other nations. Denver and Los Angeles Leaders are breaking political barriers and building world class metropolises. Boston and Detroit Innovation districts are hatching ideas to power these economies for the next century. The lessons in this book can help other cities meet their challenges. Change is happening and every community in the country can benefit. Change happens where we live and if leaders won't do it, citizens should demand it. *The Metropolitan Revolution* was the 2013 Foreword Reviews Bronze winner for Political Science. *Reporting the War* John Byrne Cooke, 2007-10-16 Threats to freedom of the press and the need for democratic dialogue are always greatest in wartime. At a time when the debate over the role of the free press is as contentious as ever before, John Byrne Cooke, son of the veteran journalist Alistair Cooke, delivers a must-read exploration of freedom of the press in wartime throughout American history. *Reporting the War* brings to life how the press has affected the course of some but not all American wars, how the government has tried to suppress opposing opinion, how the press has struggled and continues to struggle to preserve the principles of the Founding Fathers. Cooke charts a fascinating journey from the American Revolution to the ongoing War on Terrorism. **The Broadcast Decency Enforcement Act of 2004** United States. Congress. House.
