National Geographic Magazine 1978 05 May:

The Shrinking American Middle Class Joseph Dillon Davey, 2012-09-14 The United States lost one third of its factory jobs in the past decade as jobs were outsourced offshore mostly to Asia Jobs that require a college degree are next to go China will award six times as many degrees this year as they did ten years ago and any job that can be digitized will be tradable Estimates of the number of vulnerable jobs range from a low 11 million to a staggering 56 million middle class jobs The median United States household income has already dropped by seven percent since 2000 and without dramatic changes in the American workforce that trend will become a disaster for middle class Americans Transportation ,1978-05-17

First in the Homes of His Countrymen Lydia Mattice Brandt, 2016-12-14 Over the past two hundred years Americans have reproduced George Washington's Mount Vernon plantation house more often and in a greater variety of media than any of their country's other historic buildings In this highly original new book Lydia Mattice Brandt chronicles America's obsession with the first president's iconic home through advertising prints paintings popular literature and the full scale replication of its architecture Even before Washington's death in 1799 his house was an important symbol for the new nation His countrymen used it to idealize the past as well as to evoke contemporary and even divisive political and social ideals In the wake of the mid nineteenth century's revival craze Mount Vernon became an obvious choice for architects and patrons looking to reference the past through buildings in residential neighborhoods at world's fairs and along the commercial strip The singularity of the building's trademark piazza and its connection to Washington made it immediately recognizable and easy to replicate As a myriad of Americans imitated the building's architecture the Mount Vernon Ladies Association carefully interpreted and preserved its fabric Purchasing the house in 1859 amid intense scrutiny the organization safeguarded Washington's home and ensured its accessibility as the nation's leading historic house museum Tension between popular images of Mount Vernon and the organization's official narrative for the house over the past 150 years demonstrates the close and ever shifting relationship between historic preservation and popular architecture In existence for roughly as long as the United States itself Mount Vernon's image has remained strikingly relevant to many competing conceptions of our country's historical and architectural identity *Origins* Larry Booyer, 2020-07-07 *Origins* Speak to the Earth is an anthology of scientific evidence supporting a creation global flood young earth worldview It is written primarily for students as an alternative to the theory of evolution God himself formed the earth and made it he hath established it he did not create it a waste place he created it not in vain he formed it to be inhabited Isaiah 45:18 A History of Missouri Richard Stewart Kirkendall, 1971 This interpretation of Missouri's history from the end of World War I until the return of Harry Truman to the state after his presidency describes the turbulent political economic and social changes experienced by Missouri's people during those years *The Norse Discovery of America: The historical background and the evidence of the Norse settlement discovered in Newfoundland* Anne Stine Ingstad, Helge Ingstad, 1985 Volume 2 deals with historical aspects and other

matters of significance to an assessment of the Norse discovery of America providing an elucidation of the background of the Vinland voyages an interpretation of the sagas and other sources and investigations of geographical navigational climatic biological and astronomical concerns New Orleans, Louisiana, and Saint-Louis, Senegal Emily Clark, Cecile Vidal, Ibrahima Thioub, 2019-12-11 This book explores the intertwined histories of Saint Louis Senegal and New Orleans Louisiana Although separated by an ocean both cities were founded during the early French imperial expansion of the Atlantic world Both became important port cities of their own continents the Atlantic world as a whole and the African diaspora The slave trade not only played a crucial role in the demographic and economic growth of Saint Louis and New Orleans but also directly connected the two cities The Company of the Indies ran the Senegambia slave trading posts and the Mississippi colony simultaneously from 1719 to 1731 By examining the linked histories of these cities over the longue dur e this edited collection shows the crucial role they played in integrating the peoples of the Atlantic world The essays also illustrate how the interplay of imperialism colonialism and slaving that defined the early Atlantic world operated and evolved differently on both sides of the ocean The chapters in part one Negotiating Slavery and Freedom highlight the centrality of the institution of slavery in the urban societies of Saint Louis and New Orleans from their foundation to the second half of the nineteenth century Part two Elusive Citizenship explores how the notions of nationality citizenship and subjecthood as well as the rights or lack of rights associated with them were mobilized manipulated or negotiated at key moments in the history of each city Part three Mythic Persistence examines the construction reproduction and transformation of myths and popular imagination in the colonial and postcolonial cities It is here in the imagined past that New Orleans and Saint Louis most clearly mirror one another The essays in this section offer two examples of how historical realities are simplified distorted or obliterated to minimize the violence of the cities common slave and colonial past in order to promote a romanticized present With editors from three continents and contributors from around the world this work is truly an international collaboration

Imaging and Mapping Eastern Europe Katarzyna Murawska-Muthesius, 2021-05-10 Imaging and Mapping Eastern Europe puts images centre stage and argues for the agency of the visual in the construction of Europe s east as a socio political and cultural entity This book probes into the discontinuous processes of mapping the eastern European space and imaging the eastern European body Beginning from the Renaissance maps of Sarmatia Europea it moves onto the images of women in ethnic dress on the pages of travellers reports from the Balkans to cartoons of children bullied by dictators in the satirical press to Cold War cartography and it ends with photos of protesting crowds on contemporary dust jackets Studying the eastern European iconosphere leads to the engagement with issues central for image studies and visual culture word and image relationship overlaps between the codes of othering and self fashioning as well as interaction between the diverse modes of production specific to cartography travel illustrations caricature and book cover design This book will be of interest to scholars in art history visual culture and central Asian Russian and Eastern European studies *Wild Thoughts from Wild*

Places David Quammen, 2012-10-16 In *Wild Thoughts from Wild Places* award winning journalist David Quammen reminds us why he has become one of our most beloved science and nature writers This collection of twenty three of Quammen s most intriguing most exciting most memorable pieces introduces kayakers on the Futaleufu River of southern Chile where Quammen describes how it feels to travel in fast company and flail for survival in the river s maw Readers learn of the commerce in pearls and black market parrots in the Aru Islands of eastern Indonesia Quammen even finds wildness in smog choked Los Angeles embodied in an elusive population of urban coyotes too stubborn and too clever to surrender to the sprawl of civilization With humor and intelligence David Quammen s *Wild Thoughts from Wild Places* also reminds us that humans are just one of the many species on earth with motivations goals quirks and eccentricities Expect to be entertained and moved on this journey through the wilds of science and nature
