

Socio-Autobiography

Since early childhood, every person is influenced by social environment and culture of her parents and family. In this case, class location and race are the main factors which have an influence on social position and opportunities of individuals. Low class location prevents people to obtain social respect and opportunities available for middle and high class citizens. In contrast, high social position of parents creates opportunities for a child to enter prestigious school and receive good high education. Critics prove that there are interconnections between biography of a person, the social structure and culture of her family or social environment. This problem was typical for low class white families, but racial differences worsened and deepened this problem. These problems forced many young people to behave violently against society which resulted in civil disobedience. As a cultural element, rap music represents social movement against poverty, mass unemployment and negative experience of black youth. The main focus of rap is on wealth and crime influencing people's morals and appealing for trendy life style. Influenced by this music, as a cultural phenomenon, young people from low social classes become gangsters and criminals unable to find a job and earn for living (Birdsall, Graham, 2000). It is possible to say that my biography is influenced by social structure of the society. Following there are three 'levels' of social life which determine: economic structure and relations between individuals, individuals and society, individuals and the state. This level consists of sets of relations in the sphere of the production and exchange of goods and services. In many cases, my biography is influenced by these relations determining class location and level of income. The second level is social relations that are independent of and external to individuals' wills and that
