A JANE MURDER

WENDY C. ORTIZ

Excavation A Memoir

Geoff Emberling, Bruce Williams

Excavation A Memoir:

Excavation Wendy C. Ortiz, 2014 Wendy C Ortiz was an only child and a bookish insecure girl living with alcoholic parents in the San Fernando Valley of Los Angeles in the late 1980s and early 1990s Her relationship with a charming and deeply flawed private school teacher fifteen years her senior appeared to give her the kind of power teenagers wish for regardless of consequences Her teacher now a registered sex offender continually encouraged her passion for writing while making her promise she was not leaving any written record about their dangerous sexual relationship This conflicted relationship with her teacher may have been just five years long but would imprint itself on her and her later relationships queer and straight for the rest of her life In *Excavation A Memoir* the black and white of the standard victim perpetrator stereotype gives way to unsettling grays The present day narrator reflects on the girl she once was as well as the teacher and parent she has become It s a beautifully written and powerful story of a woman reclaiming her whole heart *Excavation Memoir* Patricia Spencer (Ph. D.), Valerie A. Maxfield, David Peacock, 1903 *Excavation Memoir* ,1976 *Memoirs* ,1896

The Walking Dead at Saqqara Lara Weiss, 2022-06-21 Funerary rituals and the cult of the dead are classics of research in religious studies especially for ancient Egypt Still we know relatively little about how people interacted in daily life at the city of Memphis and its Saqqara necropolis in the late second millennium BCE By focussing on lived ancient religion we can see that the social and religious strategies employed by the individuals at Saqqara are not just means on the way to religious post mortem salvation nor is their self representation simply intended to manifest social status On the contrary the religious practices at Saqqara show in their complex spatiality a wide spectrum of options to configure sociality before and after one s own death The analytical distinction between religion and other forms of human practices and sociality illuminates the range of cultural practices and how people selected modified or even avoided certain religious practices As a result pre funerary funerary and practices of the subsequent mortuary cults in close connection with religious practices directed towards other ancestors and deities allow the formation of imagined and functioning reminiscence clusters as central social groups at Saqqara creating a heuristic model applicable also to other contexts *Memoirs of the Peabody Museum of American Archaeology and Ethnology, Harvard University* ,1902 *Memoir of the Egypt Exploration Society* ,1920 *An Excellent Fortress for His Armies, a Refuge for the People*” Richard E. Averbeck, K. Lawson Younger Jr., 2020-07-10 James Hoffmeier is a giant in the field of Egyptology Among his many publications are two volumes of archaeological reports from Tell el Borg where he led excavations from 1999 to 2008 He is also well known for his interest in how ancient Egypt and the biblical world intersected having edited and written several books on the subject including the recent *Did I Not Bring Israel Out of Egypt Biblical Archaeological and Egyptological Perspectives on the Exodus Narratives* published by Eisenbrauns Dedicated to Hoffmeier this volume features essays written by more than thirty of his colleagues former students and friends The contributions cover the second and first millennia BCE from the Egyptian Old Kingdom through the Persian period as well as

New Testament times The subjects covered include archaeology biblical studies Egyptology and of course how these fields intersect with one another Among the many contributors are Aaron A Burke Deirdre Fulton Rick Hess Edmund Meltzer Alan Millard Steven Ortiz Donald B Redford Gary A Rendsburg and Nili Shupak This volume will be of interest to scholars and students who following in the footsteps of Hoffmeier are interested in how the biblical world interacted with ancient Egypt and the ancient Near East

The ^AOxford Handbook of Ancient Nubia Geoff Emberling, Bruce Williams, 2021-01-15

The cultures of Nubia built the earliest cities states and empires of inner Africa but they remain relatively poorly known outside their modern descendants and the community researching them The Oxford Handbook of Ancient Nubia brings together chapters by an international group of scholars on the history and archaeology of Nubia

Capturing the Senses Giacomo Landeschi, Eleanor Betts, 2023-06-12 This open access book surveys how digital technology can contribute effectively to improving our understanding of the past through a sensory engagement based on the evidence of material culture In particular it encourages specialists to consider senses and human agency as important factors in studying ancient space while recognising the role played by digital tools in enhancing a human centred form of analysis Significant advances in archaeological computing digital methods and sensory approaches have led archaeologists to rethink strategies and methods for creating narratives of the past Recent progress in data visualisation and implementation as well as other nascent digital sensory methods means that it is now easier to explore and experience ancient space from a multiscale perspective from the individual body or single building to the wider landscape The chapters in *Capturing the Senses Digital Methods for Sensory Archaeologies* present innovative methods for representing an embodied experience of ancient space simulating but not recreating ancient behaviours and social interaction Chapters cover topics including the potentials and pitfalls of visualising recreating and re enacting experiencing the senses in Virtual Reality environments and also digital reconstructions and auralisations of ancient spaces to study sound sensory perception Overall the book demonstrates that multisensory approaches can give a new perspective on how ancient spaces were intended to be used by inhabitants to fulfil a series of purposes including conveying messages and regulating movement This is an open access book
