Hogan, 2008-06-27 This volume chronicles the increasing divisions inside the Labor Party that came to a head in the disastrous split in 1916 over conscription for overseas military service The central figure of this era was William Holman who became Premier in June 1913 when James McGowen retired from that office Before conscription became the central issue Holman had come to be heartily detested by many in the extra parliamentary party largely because of his refusal to do anything to abolish or curb the power of the Upper House The AWU and its journal The Australian Worker led the criticism of Holman and his Government during these years For a few years Holman's superb political skills guaranteed his survival However by 1916 Holman's enemies had organized a tightly disciplined modern faction the Industrial Section later the

Industrial Vigilance Council to take control of the Executive and Conference and force policy changes on Holman When the conscription issue reached a climax with the first plebiscite ordered by Prime Minister Hughes the party at Commonwealth and State level split Both Hughes and Holman were expelled from the party continuing in office in new Nationalist administrations leaving a factionalised Labor Party to begin the process of reconstruction See Labor Pains Series link to the right for details of other Volumes A NSW Sesquicentenary of Responsible Government publication **Executive**

Baumgartner,Naoko Kada,2003-10-30 Baumgartner Kada and thier contributors examine presidential impeachment in such varied settings as the United States Russia Colombia Brazil Venezuela the Philippines and Madagascar In all of these countries there has been a serious impeachment attempt within the past decade or so The results of each impeachment attempt vary from unsuccessful attempts to those which were successful in the latter case some resulted in presidents remaining in office others in removal of the president and in one case the forced resignation of a president The common framework of each analysis includes a discussion of the historical and constitutional bases of the presidency the institutional balance of power provisions for impeachment and the structure of party politics in each country in addition the role that public opinion plays in the process is discussed While broad the framework permits comparison between the cases and some general conclusions about all phases of the impeachment process and executive accountability can be drawn One of the most important conclusions is that contrary to popular wisdom impeachment is most definitively not a strictly legal process but rather one that is highly political from start to finish As the volume makes clear it is most useful to view impeachment by way of examining the intersection of executive legislative relations partisan political conflict and public opinion
