Newton Patricia Fara, 2011-07-06 Isaac Newton is now universally celebrated as a genius of science renowned for his innovative work on gravity and optics Yet Newton did not always enjoy such legendary status His posthumous reputation has constantly changed and is riddled with contradictions NEWTON investigates the different ways in which Newton's life and works have been interpreted at different times It charts his transformation into a scientific genius explaining the changing attitude of the scientific community towards Newton's ideas from Berkeley to Einstein It also explores the making of Newton the national hero through the myths that surround him and the many artistic and literary descriptions of him NEWTON tells the fascinating story of Newton's reputation shedding light on the growth of science generally and on our changing attitude towards our intellectual heritage Fara's brilliant book is not so much a biography as the story of a phenomenon fascinating Scotsman Fara does not debunk Newton as recent novelists have but delivers him more whole and greater than ever Sunday Herald

The Defenestration of Bob T. Hash III David Deans, 2008-07-29 In a picture postcard town in the sunny suburban home of Bob T Hash III something altogether strange and amazing has occurred An African gray parrot and beloved pet named Comenius has suddenly and unexpectedly transformed into a man It seems this unassuming exotic bird heretofore content to mind its own business has miraculously metamorphosed into the spitting image of his unsuspecting master Bob T Hash III

right down to the smartly pressed suit dashing necktie and sensible horn rims As luck or some darker design would have it no one witnesses this astonishing feat of shapeshifting And in a serendipitous twist of fate luck's fickle cousin the genuine Bob T Hash III having apparently absconded to Acapulco with his charming assistant is conveniently AWOL Thus the coast is clear for the puzzled but not entirely displeased parrot to exit the wings and do what parrots do best imitate their owners a charade the avian impostor rises to effortlessly slipping with nary a misstep into the shoes the career and even the marital bed of Bob T Hash III But when having taken the reins as CEO of the Acme International Institute of Languages he stumbles upon a heinous act of corporate and grammatical sabotage Comenius begins to suspect he's being stalked by himself and it suddenly looks as if his best laid plans might just be heading south Think Kafka inverted upended and gleefully reverse engineered by Monty Python Think Borges deconstructed by Lewis Carroll and reassembled with spare parts scavenged from The New Yorker and MAD Analogies abound yet nothing can truly compare to the comic broadsides dazzling wordplay cheeky wit and wholly original flights of imagination working their magic in David Deans's inventive new novel *Consumer News United States. Successful Management in the Digital Age John Harte, 2017-07-05 Successful Management in the Digital Age examines key factors for success in today's business environment finding markets being vigilant for new trends and changes exploiting opportunities and overcoming obstacles While acknowledging the benefits of technological advances in some areas John Harte shows how artificial intelligence is limited and often imperfect Becoming thoughtlessly dependent on it may replace the far more rewarding benefits of human ingenuity creativity and innovation For Harte organizational complacency is one of the prime causes of business inertia It often results from past successes that create an illusion of wisdom and invulnerability which blinds leaders to warning signs De industrialization is just one example of a movement that led to the present market stagnation Harte reminds executives and entrepreneurs of the basic formula for success in any business producing a product or service that people want and providing it at the right time for the right price in order to make a suitable profit He warns us to resist temptations of the digital era such as automation that results in over production and market saturation outsourcing that risks losing customers and losing control of brands and markets by needless offshoring
