

Context Clues

If you are not sure what a word means, one way of figuring out what the word may mean is by using *context clues*.

Using context clues means using the information around the word you don't know. These words may help you discover what the unknown word means. Sometimes a word's definition may become clearer after reading the entire paragraph where it appears. You can also use the information in the rest of the paragraph to help you figure out what the word means.

Read each sentence or paragraph and circle the correct answer.
