Williams,2019-07-19 Some of the questions asked and answered in THE YOUNG CHRISTIAN S SURVIVAL GUIDE are You claim the Bible is inspired because it says it is right 2 Tim 3 16 Isn t that circular reasoning You claim the Bible was inspired but there was no inspired list of which books that is true of So how can we know which ones to trust With so many different copies of manuscripts that have 400 000 variants errors how can we even know what the Bible says Why can t the people who wrote the four Gospels get their story straight Didn t the Council of Nicaea just arbitrarily pick the books for the Bible that they agreed with and

suppress all the rest with political power People used to believe in miracles because they didn't understand science Don't we know better than that now That a man rose from the dead takes a lot of believing How could you ever have enough evidence for a belief like that Science has proved that human beings evolved over millions of years rather than being created in six days Why are you still clinging to ancient myths Just because the Bible is true for you why does that make it true for me How can you base your modern life on a book that was written for a primitive culture Doesn't the Bible support genocide Doesn't the Bible support racism Doesn't the Bible support slavery Doesn't the Bible support homophobia Doesn't the Bible support the oppression and abuse of women There are so many religions all sincerely seeking the same goal What makes you Christians so arrogant that you think yours is the only way What about those who have never heard the Gospel If God is a God of love why did he let my loved one die How can it be just for God to impose an infinite punishment Hell forever for finite sins These questions will be asked and answered with reasonable rational Scriptural answers

Agosta, 2024-02-06 How humanity brought about the climate crisis by departing from its evolutionary trajectory 15 000 years ago and how we can use evolutionary principles to save ourselves from the worst outcomes Despite efforts to sustain civilization humanity faces existential threats from overpopulation globalized trade and travel urbanization and global climate change In *A Darwinian Survival Guide* Daniel Brooks and Salvatore Agosta offer a novel and hopeful perspective on how to meet these tremendous challenges by changing the discourse from sustainability to survival Darwinian evolution the world's only theory of survival is the means by which the biosphere has persisted and renewed itself following past environmental perturbations and it has never failed they explain Even in the aftermath of mass extinctions enough survivors remain with the potential to produce a new diversified biosphere Drawing on their expertise as field biologists Brooks and Agosta trace the evolutionary path from the early days of humans through the Late Pleistocene and the beginning of the Anthropocene all the way to the Great Acceleration of technological humanity around 1950 demonstrating how our creative capacities have allowed humanity to survive However constant conflict without resolution has made the Anthropocene not only unsustainable but unsurvivable Guided by the four laws of

biotics the authors explain how humanity should interact with the rest of the biosphere and with each other in accordance with Darwinian principles They reveal a middle ground between apocalypse and utopia with two options alter our behavior now at great expense and extend civilization or fail to act and rebuild in accordance with those same principles If we take the latter then our immediate goal ought to focus on preserving as many of humanity's positive achievements from high technology to high art as possible to shorten the time needed to rebuild
