Buyer's Guide ,1966 **Odin's Ways** Annette Lassen,2021-12-24 This book is about the Old Norse god Odin It includes references to all occurrences of Odin in the Old Norse Icelandic texts including Saxo's Gesta Danorum the eddic poems Snorri's Edda and Ynglinga saga and analyses the high medieval reception and literary representations of Odin rather than the religious character of the god This is the only existing study of Odin in all the Old Norse Icelandic texts and applies a contextual method the different guises of Odin are studied on the basis of the various textual contexts and on their background in the literary and Christian intellectual milieu of the time Contrary to existing studies this method is non reductive in that it does not aim at providing a synthesis about Odin's original nature on the basis of the differing textual uses of Odin in the Middle Ages The book argues that the perceived complexity of Odin often highlighted in research is first and foremost a function of the complex textual material spanning a wide variety of genres each with its particular literary conventions and of the reception of Odin in early modern and modern mythological studies Un-Dead TV Brad Middleton,2015-02-05 Vampires are ubiquitous in our popular culture from movies to television in fiction and art and even within the hallowed halls of academia But in the not so distant past these undead creatures held more fear than fascination they lived in the shadows and were the stuff of nightmares In 1897 Bram Stoker introduced Dracula to the Western world and our concept of vampires was changed forever For over sixty years the undead have bled the television airwaves appearing in every type of programming imaginable Un Dead TV catalogues over one thousand unique vampire appearances and is the first book of its kind to explore this phenomenon to the extent that it truly deserves **The Video Games Guide** Matt Fox,2013-01-17 The Video Games Guide is the world's most comprehensive reference book on computer and video games Presented in an A to Z format this greatly expanded new edition spans fifty years of game design from the very earliest 1962's Spacewar through the present day releases on the PlayStation 3 Xbox 360 Wii and PC Each game entry includes the year of release the hardware it was released on the name of the developer publisher a one to five star quality rating and a descriptive review which offers fascinating nuggets of trivia historical notes cross referencing with other titles information on each game's sequels and of course the author's views and insights into the game In addition to the main entries and reviews a full color gallery provides a visual timeline of gaming through the decades and several appendices help to place nearly 3 000 games in context Appendices include a chronology of gaming software and hardware a list of game designers showing their main titles results of annual video game awards notes on sourcing video games and a glossary of gaming terms **Dictionary of Phrase & Fable** Ebenezer Cobham Brewer,1968 Encyclopedia of Beasts and Monsters in Myth, Legend and Folklore Theresa Bane,2016-05-09 Here there be dragons this notation was often made on ancient maps to indicate the edges of the known world and what lay beyond Heroes who ventured there were only as great as the beasts they encountered This encyclopedia contains more than 2 200 monsters of myth and folklore who both made life difficult for humans and fought by their side Entries describe the appearance behavior and cultural origin of mythic creatures well
