*Blind over Cuba* David M. Barrett, Max Holland, 2012-09-01 In the aftermath of the Cuban Missile Crisis questions persisted about how the potential cataclysm had been allowed to develop A subsequent congressional investigation focused on what came to be known as the photo gap five weeks during which intelligence gathering flights over Cuba had been attenuated In *Blind over Cuba* David M Barrett and Max Holland challenge the popular perception of the Kennedy administration s handling of the Soviet Union s surreptitious deployment of missiles in the Western Hemisphere Rather than epitomizing it as a masterpiece of crisis management by policy makers and the administration Barrett and Holland make the case that the affair was in fact a close call stemming directly from decisions made in a climate of deep distrust between key administration officials and the intelligence community Because of White House and State Department fears of another U 2 incident the infamous 1960 Soviet downing of an American U 2 spy plane the CIA was not permitted to send surveillance aircraft on prolonged flights over Cuban airspace for many weeks from late August through early October Events proved that this was precisely the time when the Soviets were secretly deploying missiles in Cuba When Director of Central Intelligence John McCone forcefully pointed out that this decision had led to a dangerous void in intelligence collection the president authorized one U 2 flight directly over western Cuba thereby averting disaster as the surveillance detected the Soviet missiles shortly before they became operational The Kennedy administration recognized that their failure to gather intelligence was politically explosive and their subsequent efforts to influence the perception of events form the focus for this study Using recently declassified documents secondary materials and interviews with several key participants Barrett and Holland weave a story of intra agency conflict suspicion and discord that undermined intelligence gathering adversely affected internal postmortems conducted after the crisis peaked and resulted in keeping Congress and the public in the dark about what really happened Fifty years after the crisis that brought the superpowers to the brink *Blind over Cuba* The Photo Gap and the Missile Crisis offers a new chapter in our understanding of that pivotal event the tensions inside the US government during the cold war and the obstacles Congress faces when conducting an investigation of the executive branch

Wevill,2012-05-15 The period immediately after World War II was a vital one for diplomatic relations and with the Soviet Union emerging as a new superpower it was particularly important for Britain's relations with America This is the first book to focus on the role of the British Embassy in Washington during this period According to Richard Wevill the British Embassy was pivotal in the fulfilment of key British foreign financial and imperial policy objectives Applying the implications of new archival material to the turning points of the period including a detailed review of Lord Halifax's ambassadorship under Attlee a re evaluation of the part of Roger Makins in the atomic energy discussions and the Embassy's influence in relation to Palestine Wevill argues for a more nuanced understanding of the special relationship in its most formative period He offers a recasting of a crucial period of twentieth century history providing fascinating new detail on Britain's relations with President Truman as well as with Secretaries of State George Marshall and Dean Acheson Charting the beginnings of one of modern history's most influential alliances this book will be a primary reference point for students and scholars of History the Cold War Politics and International Relations

**The National Security** Norman A. Graebner,1986 This collection of essays presented at a conference at West Point by leading political thinkers including David Alan Rosenberg Richard D Challener Lloyd C Gardner and Martin J Sherwin explores the national security policies developed by the Truman and Eisenhower administrations 1945 1960 in response to the threat of Soviet expansionism Stressing that fear motivated the makers of Cold War policy the contributors discuss such topics as the objections raised by Democrats to nuclear security strategy Eisenhower's disputes with Army and Navy leaders and the evolution of Cold War policy into today's global security policy

*Vietnam's Year of the Rat* Ronald Bruce Frankum, Jr.,2014-04-10 Vietnam's Year of the Rat explores the lunar New Year 1960 and the dynamic relationship between two competing groups vying for control in the Republic of Vietnam One group led by United States Ambassador Elbridge Durbrow worked toward directing Vietnam towards an American style democracy that focused on forcing reforms within the Saigon government The other group headed by Republic of Vietnam President Ngo Dinh Diem attempted to navigate the demands of Durbrow and the State Department and to confront internal opposition and an emerging external threat while trying to further the goals of the Republic The result was a series of failed opportunities by both sides to resolve the differences of the two complementary if conflicting strategies Vietnam's Year of the Rat offers an alternative to the now standard historiography for this period of the study in the Vietnam War by providing a Vietnamese viewpoint into the story of that long and tragic war

Arms for Russia & The Naval War in the Arctic, 1941-1945 Andrew Boyd,2024-11-30 This major new work fundamentally reassesses the operations by the Western allies to deliver war supplies to Russia via the Arctic sea route between 1941 and 1945 It explores the motives underpinning Western

aid its real impact on the Soviet war effort and its influence on wider Allied and German strategy as the war developed. It brings to life key participants, political and military, describes the interaction of intelligence with high policy and tactics, and brings a fresh perspective to key events including the notorious convoy PQ 17. The book disputes the long-standing view that aid to Russia was essentially discretionary, lacking military rationale and undertaken primarily to meet political objectives with only a minor impact on Soviet war potential. It shows that aid was always grounded in strategic necessity with the Arctic supply route a constant preoccupation of British and American leaders, absorbing perhaps twenty per cent of Royal Navy resources after 1941 and a significant share of Allied merchant shipping badly needed in other theaters. The Soviet claim determinedly promoted through the Cold War that aid was marginal still influences attitudes in Vladimir Putin's Russia and contemporary Western opinion. It even resonates through the present war in Ukraine. Andrew Boyd demonstrates that in reality Western aid through the Arctic was a critical multiplier of Soviet military power throughout the war and perhaps even enabled Russia's very survival in 1942, and he makes plain that the British contribution to the aid effort was greater than generally acknowledged. The book also emphasises that the Arctic conflict was not framed solely by the supply convoys, important though they were. British, German and Russian operations in a theater defined by Adolph Hitler in early 1942 as the zone of destiny were shaped by other perceived opportunities and threats. For instance, Germany concentrated its fleet in Norway to forestall a potential British attack while attempting land offensives to cut Russia's links with its northern ports. It also had vital raw materials to protect. Britain explored potential operations with Russia to dislodge Germany from the Arctic coast and sever her access to important resources. Elegantly written, incorporating many new perspectives on the Arctic theater, this new work should find a place on the shelves of every historian, scholar and enthusiast whose interests extend to the Russian dimension of the Second World War. The Rehnquist Court and the Constitution Tinsley E.

Yarbrough, 2000. Thoughtful, wide-ranging and intelligently written, this volume is an insightful look at the Rehnquist Court and its impact on law and American life. *Annual report (San Francisco (Calif.) Coroner). 1877/78-1878/79,*

Supervisors, 1883. **Unraveling the Gray Area Problem** Luke Griffith, 2023-12-15. In *Unraveling the Gray Area Problem* Luke Griffith examines the US role in why the Intermediate Range Nuclear Forces (INF) Treaty took almost a decade to negotiate and then failed in just thirty years. The INF Treaty enhanced Western security by prohibiting US and Russian ground-based missiles with maximum ranges of 500 to 5,500 kilometers. Significantly, it eliminated hundreds of Soviet SS-20 missiles which could annihilate targets throughout Eurasia in minutes. Through close scrutiny of US theater nuclear policy from 1977 to 1987, Griffith describes the Carter administration's masterminding of the dual-track decision of December 1979, the North Atlantic Treaty Organization (NATO) initiative that led to the INF Treaty. The Reagan administration in turn overcame bureaucratic infighting, Soviet intransigence and political obstacles at home and abroad to achieve a satisfactory

outcome in the INF negotiations Disagreements between the US and Russia undermined the INF Treaty and led to its dissolution in 2019 Meanwhile the US is developing a new generation of ground based INF type missiles that will have an operational value on the battlefield Griffith urges policymakers to consider the utility of INF type missiles in new arms control negotiations Understanding the scope and consistency of US arms control policy across the Carter and Reagan administrations offers important lessons for policymakers in the twenty first century      **Accounts and Papers** Great Britain.
