Groth,2012-08-10 A journey into the vibrant and intriguing world of mathematics education Teaching Mathematics in Grades 6 12 explores how research in mathematics education can inform

teaching practice in grades 6-12. The author shows secondary mathematics teachers the value of being a researcher in the classroom by constantly experimenting with methods for developing students' mathematical thinking and then connecting this research to practices that enhance students' understanding of the material. The chapters in Part I introduce secondary teachers to the field of mathematics education with cross-cutting issues that apply to teaching and learning in all mathematics content areas. The chapters in Part II are devoted to specific mathematics content strands and describe how students think about mathematical concepts. The goal of the text is to have secondary math teachers gain a deeper understanding of the types of mathematical knowledge their students bring to grade 6-12 classrooms and how students' thinking may develop in response to different teaching strategies.

Rational Expressions and Quadratic Equations Sara Freeman, 2002-09-01. This easy-to-use packet is chock full of stimulating activities that will jumpstart your students' interest in algebra while reinforcing major concepts. A variety of puzzles, games, and worksheets will challenge students as they simplify rational expressions, solve rational equations, simplify square roots, and solve quadratic equations.
