Fair Housing Rules Hud Manual:

Fair Housing Act Design Manual U. S. Department of Housing and Urban Development, 2011-08-31 The Department is pleased to present the Fair Housing Act Design Manual The manual was first published in August 1996 and was updated in 1998 This republication of the 1998 manual is intended to provide clear and helpful guidance about ways to design and construct housing that complies with the Fair Housing Act The manual provides comprehensive information about accessibility requirements which must be incorporated into the design and construction of multifamily housing covered by the Act It clarifies out two statutory responsibilities first it provides a clear statement of HUD's interpretation of the accessibility requirements of the Act so that readers may know what actions on their part will provide them with a safe harbor and second it provides guidance in the form of recommendations which meet the Department's obligation to provide technical assistance on alternative accessibility approaches Readers following the revised manual can rely on it They will be in compliance with the Act's accessibility provisions if they carry them out However it should be noted that when the manual uses the terms recommended preferred should could or uses italics or text labeled as recommended the material involved is provided as a suggestion for accessibility and not a requirement under the Act In addition HUD currently recognizes six other safe harbors for compliance with the Fair Housing Act's design and construction requirements The other safe harbors are 1 HUD's March 6 1991 Fair Housing Accessibility Guidelines the Guidelines and the June 28 1994 Supplemental Notice to Fair Housing Accessibility Guidelines Questions and Answers about the Guidelines 2 ANSI A117.1-1996 used in conjunction with the Act and HUD's regulations and the Guidelines 3 CABO ANSI A117.1-1992 used in conjunction with the Act HUD's regulations and the Guidelines 4 ICC ANSI A117.1-1998 used in conjunction with the Act HUD's regulations and the Guidelines 5 Code Requirements for Housing Accessibility 2000 CRHA approved and published by the International Code Council ICC October 2000 6 International Building Code 2000 IBC as amended by the IBC 2001 Supplement to the International Codes It is important to note that the ANSI A117.1 standard contains only technical criteria whereas the Fair Housing Act the regulations and the Guidelines contain both scoping and technical criteria Therefore in using any of the ANSI standards it is necessary to also consult the Act HUD's regulations and the Guidelines for the scoping requirements Providing an environment where persons with disabilities can have the same access to and ability to use housing that persons without disabilities enjoy is both a worthwhile goal and the law The Department is committed to helping those who develop housing to meet the requirements of the law so that we can reach the goal of providing meaningful access for people with disabilities

Fair Housing Act Design Manual U S Dept of Housing and Urban Development, Inc Barrier Free Environments, 2025-05-22 First published in 1996 the Fair Housing Act Design Manual A Manual to Assist Designers and Builders in Meeting the Accessibility Requirements of The Fair Housing Act provides clear and helpful guidance about ways to design and construct housing which complies with the Fair Housing Act The manual explains the accessibility requirements of the Act which must

be incorporated into the design and construction of multifamily housing covered by the Act A clear statement of HUD's interpretation of the accessibility requirements of the Act is included so that readers may know what actions will provide them with a safe harbor Recommendations are made which although not binding meet the Department's obligation to provide technical assistance on alternative accessibility approaches that are at least minimally in compliance with the Act The latter information allows housing providers to choose among alternatives and provides persons with disabilities with information on accessible design approaches In the previous edition differences existed between the Act's accessibility requirements and the non binding or recommended guidance provided by the manual The revised manual clarifies what are requirements under the Act and what are HUD's technical assistance recommendations The portions describing the requirements are clearly differentiated from the technical assistance recommendations This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant

Office of Housing,2005 The Fair Housing Act Design Manual A Manual to Assist Designers and Builders in Meeting the Accessibility Requirements of The Fair Housing Act provides clear and helpful guidance about ways to design and construct housing which complies with the Fair Housing Act The manual provides direct information about the accessibility requirements of the Act which must be incorporated into the design and construction of multifamily housing covered by the Act It carries out two statutory responsibilities 1 to provide clear statement of HUD's interpretation of the accessibility requirements of the Act so that readers may know what actions on their part will provide them with a safe harbor and 2 to provide guidance in the form of recommendations which although not binding meet the Department's obligation to provide technical assistance on alternative accessibility approaches which will comply with the Act but may exceed its minimal requirements The latter information allows housing providers to choose among alternative and also provides persons with disabilities with

information on accessible design approaches The Manual clarifies what are requirements under the Act and what are HUD's technical assistance recommendations The portions describing the requirements are clearly differentiated from the technical assistance recommendations
