**The Russian Invasion of Ukraine, February - December 2022** John S Harrel, 2024-01-30 For the Military Enthusiast an intriguing view of the war through the eyes of a contemporary Western Military Officer ARGunners.com On 24 February 2022 Russian forces invaded Ukraine intending to overthrow the Zelensky government and bring the former Soviet republic back into the Russian sphere of control Vladimir Putin clearly expected a quick victory and many in the West also predicted that Kiev would fall in a few days But they hadn't counted on the skilled courageous and determined resistance of the Ukrainian armed forces nor the degree to which Russian military might had been overestimated The initial Russian dash for Kiev was thrown back and their advances in the east and south also slowed by a combination of fierce resistance and their own unpreparedness inadequate logistical planning and incompetent command While the Russians ground their way forward in the east and south of the country devastating towns and cities they paid a heavy price in casualties and equipment losses A carefully planned Ukrainian counteroffensive in the summer forced the invaders into a series of humiliating retreats As winter approached the Russians still held considerable territory but the initiative and strategic momentum had clearly swung to the defenders The illusion of Russian invincibility was shattered forever US Major General retired John S Harrel a graduate of the US Army War College trained with the Ukrainian army in the 1990s and in 2006 and commanded Ukrainian troops as part of the NATO force in Kosovo in 2005 His military expertise and detailed knowledge of the combatants informs this clear narrative and analysis of the course of the first 10 months of the war He gives the reasons for the failure of the Russian invasion and conversely explains how the Ukrainian defense exceeded expectations while acknowledging that strategic mistakes were made on both sides

**The Making of Arab News** Noha Mellor, 2005-01-28 Since September 11 Arab and American journalists have been trading barbs accusing each other of bias and a lack of objectivity But is news coverage in Arab countries all that different from American coverage The Making of Arab News draws comparisons including examples of Arabic news language and their English translations to show how Arab news values have been Americanized and how these values are reflected in the language used in the Arab news Noha Mellor further discusses claims that the current development in the Arab news media could be the first step toward democratization

Jonathan Walker,2015-03-31 This controversial and stirring account of one of the bloodiest battles of the Great War recounts a heroic but disastrous engagement which left a lasting rift between the British and Australians Drawing from a wealth of unpublished sources and eyewitness accounts Jonathan Walker s study of the Battle of Bullecourt is vital to an understanding of the difficulties that faced Great War commanders Central to *The Blood Tub* is a reassessment of Sir Hubert Gough one of the Great War s most colourful generals In the late spring of 1917 the Allies attacked at Arras and a combined British and Australian force under General Thruster Gough assaulted the fortress village of Bullecourt Despite using the new wonder weapon the tank Gough s first attack ended in disaster and bitter recriminations He then launched a second massive attack For the next two weeks the Battle of Bullecourt dominated British offensive action on the Western Front It was the excessive brutality and ferocity of the hand to hand fighting that earned Bullecourt the name Blood Tub      *The Beauty of Darkness*

(*Black PR*) Le Tran Bao Phuong,2025-07-14 PART III EMPIRE OF SHADOWS When the manipulator turned back the first thing he saw was a world rebuilt in the exact image of the darkness he had created No longer a campaign No longer a scheme This was an empire where belief machines operated autonomously without the hand of their creator Masks had now become true faces And in the intoxication of the crowds the one who awakened was merely a lost outlier Amory emerged from his meditation chamber bringing not light but the remnants of silence But what awaited him was not forgiveness but a paradox to save the world from darkness he had to understand its every fingerprint Every layer of anonymous power Every story rewritten by invisible keyboards That empire was not on any map It existed in the collective consciousness where people rejected truth for the comfort of meticulously designed lies Descending the mountain was not an awakening It was merely a re entry And this time Amory was no longer the scriptwriter but the main character in a tragicomedy he himself had initiated      The Roots and Consequences of 20th-Century Warfare

*and Military Operations in the 21st Century* Michal Shavit, 2016-07-15 This book applies the concept of mediatization to the contemporary dynamic between war media and society with a focus on the Israel Defence Forces IDF Since the beginning of the 21st century the IDF has undergone an intensive process of mediatization that has transformed the media into an interpretative grid for many of its military activities and increasingly utilized media to garner public support and construct civilian perceptions of conflict and security through media activity and strategy This process can be divided into four distinct chronological phases in accordance with the operational challenges confronted by the IDF during this period from the Al Aqsa Intifada of 2000 through Israeli unilateral disengagement from Gaza in 2005 and the second Lebanon war of 2006 to the series of Gaza confrontations of 2008 2014 The work shows how the IDF s media policy evolved from a narrow perception of its role and separation between operational and media actions to a cohesive and coherently articulated media strategy that is increasingly intertwined with military action and operational strategy and a vital component of strategic military aims and objectives This strategic stance has led the IDF to adopt a global media perspective using the most advanced new media platforms designed to influence public opinion and improve national narratives both in Israel and the international community By applying the concept of mediatization to the Israeli case this book fills a research lacuna and offers a new prism for the study of media military relations in contemporary conflicts The book will be of much interest to students of civil military relations strategic studies Middle Eastern Studies media and communication studies sociology and IR in general
