Decolonising Geography? Disciplinary Histories and the End of the British Empire in Africa, 1948-1998 Ruth Craggs, Hannah Neate, 2023-10-02
DECOLONISING GEOGRAPHY This book presents an extraordinarily sensitive account of geography's histories in five African countries subjected to British colonial rule. Craggs and Neate draw together political and imaginative processes of decolonisation through an innovative biographical approach that humanizes and enlivens the story of our academic discipline. It will be an invaluable resource for those seeking a deeper understanding of decolonisation, its recent trajectories and far-reaching implications on the African continent. Shari Daya Affiliate Associate Professor in Environmental and Geographical Science, University of Cape Town. By placing the experiences, ideas and practices of African geographers in the center of their analyses, Craggs and Neate provide an unprecedented account of historical and contemporary decolonizing struggles within Geography and the academy. This book should be required reading for all those looking to decolonize the discipline and dislodge it from its Global North histories, institutions and ideologies. Mona Domosh, Professor of Geography, The Joan P and Edward J Foley Jr 1933 Professor, Dartmouth College. This meticulous work explores how colonialism, decolonization and postcolonialism shaped African geography and geographers. It sheds light on efforts to Africanize the discipline, a process which I was both witness to and a participant in. Stanley Okafor, Professor of Geography, Retired, University of Ibadan. How did a generation of academic geographers engage with constitutional decolonisation during the end of the British empire in Africa? In *Decolonising Geography: Disciplinary Histories and the End of the British Empire in Africa, 1948-1998*, Ruth Craggs and Hannah Neate explore how the teaching, research, administration and activism of geographers in Africa shaped the discipline and the post-colonial geopolitics of the continent. The authors follow the professional lives of individual geographers to provide fresh insights into decolonisation in the former British Empire in Africa, drawing from extensive archival research and more than 40 oral history interviews with geographers in Ghana, Nigeria, South Africa, Tanzania and the UK. *Decolonising Geography* is a must-read for any reader in the UK and Africa with an interest in the relationships between geography and decolonisation.

The European Union and the Black Sea Sinem Akgul Acikmese, Dimitrios Triantaphyllou, 2017-10-02
The idea for this book is derived from the scantiness of academic references on the European Union's policies towards the Black Sea relative to this region's officially stated significance for the EU. Even though the EU plays a vital role in Black Sea political agendas, the EU's cooperation with the region is not extensively covered by academic discussions and literature. This is mostly due to the fact that the EU's focus on foreign affairs is mainly associated with the Balkans as part of the current and potential expansion and the Middle East as a direct consequence of the upheaval of the Arab Spring. The Black Sea region is crucially important for the EU because of the opportunities and challenges that the region presents both politically and socio-economically. Contributions to this book mostly focus on specific issues of EU-Black Sea cooperation from conflict to the environment to democracy and how these

particular relationships are perceived within the region as well as through the lenses of stakeholders such as Russia Turkey and the USA Overall the collection focuses on projecting a more efficient role and a holistic strategy for the EU in its approach towards the Black Sea region testifying to the need for a strong EU presence For this reason the Black Sea area remains the neighbourhood too close to yet still far from the European Union This book was originally published as a special issue of the Journal of Balkan and Near Eastern Studies The Northeast Question Pradip Phanjoubam,2015-12-14 This book explores the idea psychology and political geography of Northeast India as forged by two interrelated but autonomous meta narratives First the politics of conflict inherent in and therefore predetermined by physical geography and second the larger geopolitics that was unfolding during the colonial period Unravelling the history behind the turmoil engulfing Northeast India the study contends that certain geographies most pertinently fertile river valleys and surrounding mountains which feed the rivers are integral to nature and any effort to disrupt this cohesion will result in conflict It comprehensively traces the geopolitics of the region since colonial era in particular the Great Game the politics that went into the making of the McMahon Line the Radcliffe Line and the Pemberton Line the region s relations with its international neighbours China Bhutan Myanmar Bangladesh and Nepal as well as the issue of many formerly non state bearing populations awakening to the reality of the modern state Lucid and analytical this book will be of great interest to scholars and researchers of Northeast India modern Indian history international relations defence and strategic studies and political science

Origination Andy Pike,2015-06-02 Origination The Geographies of Brands and Branding offers innovative theoretical and conceptual frameworks relating to the ways that actors create meaning and value in commodity brands and branding through processes of geographical association Provides innovative conceptualization and theorization to facilitate an understanding of the geographical dimensions of brands and branding Challenges current interpretations of brands as vehicles of homogenization in globalization Establishes the theoretical and conceptual foundations of a more geographically sensitive approach through rigorous empirical examination of the under researched geographical differentiation of commodity brands and branding Presents innovative new research and analysis of the socio spatial biographies of the Newcastle Brown Ale Burberry and Apple brands Forges strong new connections between political and cultural economy approaches within geography Provides a distinctive and incisive conceptual and theoretical framework capable of engaging other branded commodities and their branding in other times and places *Asymmetric Crisis in Europe and Possible Futures* Johannes Jäger,Elisabeth Springler,2015-04-10 The crisis in Europe is often discussed as a crisis of European integration or a crisis of national economies within Europe Both the methodological Europeanism and methodological nationalism miss out the important links between economic and political processes at different spatial scales within Europe and therefore asymmetries and phenomena of uneven development In addition a discussion of possible scenarios which systematically addresses the implications of anti crisis policies is missing This volume seeks to close this gap by

systematically integrating the analysis of economic policy or technical solutions to the crisis within a broader framework of political economy. It argues that combining critical political economy approaches and post Keynesian perspectives allows for a systematic understanding of the economic and political dimensions of the crisis. Although both approaches have the capacity to deal with asymmetries and uneven development, the heterogeneity in Europe has been an often largely neglected dimension of analysis. However, this recent crisis has shown that this is an essential dimension which has to be addressed in order to better understand the dynamics of European development and integration. Hence, this book aims to deal with asymmetries in Europe and to bridge the gap between the two perspectives. This work will initiate an integrative debate that is crucial for a deeper understanding of the current crisis and is an important resource for all students and scholars of IPE.

Russia and the New World Disorder Bobo Lo, 2015-08-17 The Russian annexation of Crimea was one of the great strategic shocks of the past twenty-five years. For many in the West, Moscow's actions in early 2014 marked the end of illusions about cooperation and the return to geopolitical and ideological confrontation. Russia, for so long a peripheral presence, had become the central actor in a new global drama. In this groundbreaking book, renowned scholar Bobo Lo analyzes the broader context of the crisis by examining the interplay between Russian foreign policy and an increasingly anarchic international environment. He argues that Moscow's approach to regional and global affairs reflects the tension between two very different worlds: the perceptual and the actual. The Kremlin highlights the decline of the West, a resurgent Russia, and the emergence of a new multipolar order. But this idealized view is

contradicted by a world disorder that challenges core assumptions about the dominance of great powers and the utility of military might Its lesson is that only those states that embrace change will prosper in the twenty first century A Russia able to redefine itself as a modern power would exert a critical influence in many areas of international politics But a Russia that rests on an outdated sense of entitlement may end up instead as one of the principal casualties of global transformation

Reassessing Lukashenka G. Ioffe, 2014-10-05 What are the factors of Lukashenka s longevity at the helm of power This question is addressed in the context of Belarusian history and identity not as an outcome of a form of government deceitfully imposed on an allegedly benighted people whom better positioned and informed outsiders seek to enlighten and liberate

1916 Kieran Allen, 2016-01-20 A few minutes after noon on the 24th April 1916 Patrick Pearse stepped outside the newly occupied GPO on Sackville Street with a copy of the Proclamation of the Irish Republic Reading aloud he declared a strike for Irish freedom against the world s greatest imperial power The Easter Rising as the six days of intense bloody fighting that followed came to be known set the course for the next 100 years of Irish history the Heroes of 16 becoming a national cultural and political touchstone down the generations But today canonised and mummified the radical visions of Pearse and the socialist James Connolly are an awkward encumbrance on an Irish state that has its roots in the counter revolution of the civil war and which has emerged as a haven of economic neoliberalism In this fascinating alternative history of modern Ireland Kieran Allen follows the thread of 1916 s revolutionary tradition an uneasy marriage of Socialism and Republicanism as it has unravelled across the century From the strikes boycotts occupations and land redistribution that accompanied the war of independence to the carnival of reaction that followed all the way up to the current movement against water charges and austerity Allen reveals the complexities ruptures and continuities of a revolutionary tradition that continues to haunt the establishment today
