Academic Languageing Gisela Ernst-Slavit, Margo Gottlieb, 2025-07-15 Rethink how academic languageing can transform content area teaching For years the teaching of content based academic language to multilingual learners has focused on formulas vocabulary lists and sentence patterns often sidelining students linguistic and cultural strengths Gisela Ernst Slavit and Margo Gottlieb address these challenges by embracing academic languageing an active collaborative student driven process Academic Languageing offers strategies to integrate language and content learning while fostering student engagement voice and agency Dedicated chapters on academic languageing for Language Arts Mathematics Social Studies and Science highlight the dimensions of disciplinary language for each subject and provide strategies for moving learning forward with multilingual learners Additional features include Stop and Think prompts to help educators connect new ideas with their instructional settings Prompts at the end of each chapter to encourage deeper thinking and application of the material Multilingual examples to mirror the varied classroom settings in the U S and beyond The ultimate resource for educators committed to empowering multilingual learners and fostering meaningful culturally sustaining education Academic

Language ensures multilingual learners comprehend academic content and thrive as confident autonomous drivers of their own learning
Situating Data Science Michelle Hoda Wilkerson, Joseph L. Polman, 2022-04-19 The emerging field of Data Science has had a large impact on science and society This book explores how one distinguishing feature of Data Science its focus on data collected from social and environmental contexts within which learners often find themselves deeply embedded suggests serious implications for learning and education Drawing from theories of learning and identity development in the learning sciences this volume investigates the impacts of these complex relationships on how learners think about use and share data including their understandings of data in light of history race geography and politics More than just using real world examples to motivate students to work with data this book demonstrates how learners relationships to data shape how they approach those data with agency as part of their social and cultural lives Together the contributions offer a vision of how the learning sciences can contribute to a more expansive socially aware and transformative Data Science Education The chapters in this book were originally published as a special issue of the Journal of the Learning Sciences **2025-26**
