*Pennsylvania Government and Politics* Thomas J. Baldino, Paula A. Duda Holoviak, 2024-03-12 This book provides a comprehensive examination of the Keystone State's formal and informal political institutions and players past and present and elucidates the place each holds in governing the commonwealth today. Covering a period of more than three hundred years, this volume presents a clear and succinct overview of the commonwealth's political history, culture, and geography, interactions between office holders, civil servants, special interest groups, and the media, policy development and implementation, how laws are created, enacted, and enforced, hierarchy and interaction among state, county, local, and special district government bodies and officials, tax collection and disbursement, and the political upheaval in the wake of the COVID-19 pandemic and the 2020 presidential election. Featuring practical appendixes and interviews with current and past office holders, bureaucrats, party leaders, and political journalists, this astute and informative book is an indispensable tool for understanding politics in the Keystone State.

*24-Hour Cities* Hugh F. Kelly, 2016-07-15 Winner of the Gold Award in the Tenth Annual Robert Bruss Real Estate Book Competition. *24 Hour Cities* is the very first full-length book about America's cities that never sleep. Over the last fifty years, the nation's top live-work-play cities have proven themselves more than just vibrant urban environments for the elite. They are attracting a cross-section of the population from across the U.S. and are preferred destinations for immigrants of all income strata. This is creating a virtuous circle wherein economic growth enhances property values, stronger real estate markets sustain more reliable tax bases, and solid municipal revenues pay for better services that further attract businesses and talented individuals. Yet just a generation ago, cities like New York, Boston, Washington, San Francisco, and Miami were broke financially and physically scarred by violence and prime examples of urban dysfunction. How did the turnaround happen? And why are other cities still stuck with the hollow downtowns and sprawling suburbs that make for a 9 to 5 urban configuration? Hugh Kelly's cross-disciplinary research identifies the ingredients of success and the recipe that puts them together.

**Committed to Learning** Juliet Flesch, 2017-11-27 Consistently ranking in the top five educational faculties in the world, the Melbourne Graduate School of Education has achieved a status few would have predicted. This history of the first hundred and ten years of the discipline of Education at the University of Melbourne reflects the extraordinary change in the esteem in which it has been held in the university, Australia, and the world. The very idea of Education as a suitable course of study at a university was initially opposed, and until recently, the standing of this faculty compared to other professional faculties such as Law or Medicine has been less than equal. But since the University was revitalised and reorganised under the Melbourne Model in 2008, its reputation has risen steadily. **Committed to Learning** brings to life those whose vision and hard work since its early beginning have brought such success to this faculty.
