Handbook on Gender and Health Jasmine Gideon, 2016-05-27 This Handbook brings together a groundbreaking collection of chapters that uses a gender lens to explore health care and health policy in both the Global South and North. Empirical evidence is drawn from a variety of different settings and points to the many ways in which the gendered dimensions of health have become reworked across the globe. This collection includes insightful contributions from 56 leading authorities from Africa, the Americas, Asia, Europe, and the Middle East, offering a wealth of knowledge, theoretical reflection, and empirical detail on the essential elements surrounding gender and health. Topics covered include theoretical approaches to understanding gender and health, migration, sexuality, ageing, masculinities, climate change, and sexual and reproductive rights. Split into four thematic sections, this book strives to develop a clear road map towards achieving gender justice in health. The Handbook on Gender and Health will be an important resource for researchers, students, and instructors of health policy and family and gender studies. Contributors include G. Alvarez, M. E. Ansoléaga, L. Moreno, L. Artazcoz, A. E. Birn, R. A. Burgess, A. Coates, I. Cortés, S. Del Pino, K. Devries, X. D. Berr, L. Doyal, K. Elzein, V. Escobar, B. Eveslage, C. Ewig, J. Gideon, J. Hursh, 2015-10-16 The End of Public Schools analyzes the effect of foundations, corporations, and non-governmental organizations on the rise of neoliberal principles in public education. By first contextualizing the privatization of education within the context of a larger educational crisis and with particular emphasis on the Gates Foundation and influential state and national politicians, it describes how specific policies that limit public control are advanced across all levels. Informed by a thorough understanding of issues such as standardized testing, teacher tenure, and charter schools, David Hursh provides a political and pedagogical critique of the current school reform movement as well as details about the increasing resistance efforts on the part of parents, teachers, and the general public. **The English Professor** Margaret R. O'Leary/Dennis S. O'Leary, 2016-02-04 Across the span of more than forty years, Raphael Dorman O'Leary, a professor of English rhetoric and English literature, taught his students at the University of Kansas to think straight, to put sinew into their sentences, and to embrace the magnificent literary treasures of their mother tongue. The English Professor, by authors Margaret R. O'Leary and Dennis S. O'Leary, offers a narrative of the life, work, and times of a revered Midwestern university English teacher. This memoir narrates how the professor, born in 1866, was raised on a Kansas farm in the post-bellum era. Like his father before him, he was committed to a life of learning and teaching. His colleagues knew him for his unpretentious exterior, honesty, and integrity, and his flashing anger at cheapness, vulgarity, pretense, and above all,

charlatanism When Professor O Leary died after a short illness in 1936 his personal effects passed through two generations to his grandson Dennis S O Leary who with his wife Margaret discovered his papers while restoring a family house The trove of material served as the core resource for the compilation of *The English Professor* It provides insights into the histories of Kansas and the University of Kansas and of Harvard University as well as perspectives on higher education including the teaching of English rhetoric language literature journalism and oratory in the United States **The Rural New-Yorker**, 1923 [Pennsylvania Government and Politics](#) Thomas J.
