Larsen, 2023-10-09 What if everything in the Bible has a larger outer context than is usually accounted for Missional and biblical theologies suggest that the Bible presents a grand story like a play with multiple acts The acts typically include creation fall redemption and finally restoration But what if the whole story itself occurs in another larger setting occurring within a mission running in the background throughout the whole Bible How might this aid our research reading and application And why is this being proposed now This book explores these questions The larger context is the production of the place of God a home and homeland wherein God with his people dwell on earth Since place is underdeveloped in biblical studies the book presents a new method for interpreting place Then the book lays out the case that a grand mission to produce the place of God becomes the outer context for the whole Bible Finally the book defends this proposal with an in depth placial commentary of the bookends of the Bible since these bookends provide keys to unlock this message thereby inviting further study on the rest of the Bible and on the implications for this transformative perspective

*Philomathic Journal and Literary Review* ,1826 **Mapping European Empire** Russell Foster, 2015-06-26 Empire and maps are mutually reliant phenomena and traceable to the dawn of civilisation Furthermore maps retain a supremely authoritative status as unquestioned reflections of reality In today s image saturated world their influence is more powerful now than at any other time in history This book argues that in the 21st century we are seeing an imperial renaissance in the European Union EU a political organisation which defies categorisation but whose power and influence grows by the year It

examines the past present and future of the EU to demonstrate that empire is not a category of state but rather a collective imagination which reshapes history and appropriates an artificial past to validate the policies of the present and the ambitions of the future In doing so this book illuminates the imperial discourse that permeates the mass maps of the modern EU This text will be of key interest to students and scholars of political science EU Studies Human Geography European political history cartography and visual methodologies and international relations
