*Soulhunters (Chronicles of the Creator)* Colin Chadwick,2011-12-19 Chronicles of the Creator Over two thousand years ago the goddess Syalonis was betrayed by the evil machine god Morgatan During the confrontation the goddess was ambushed and her consciousness was shattered into a thousand pieces to be scattered through her galactic body Now the last vestige of her awareness hides on the isolated world of Dragonsbreath as she tries vainly to recover Unable to intervene Morgatan lays siege to her galaxy and her corrupt angels strike from the Realm of Death harvesting the souls of the innocent Syalonis has one final hope the gladiator Tan child of three realms Soulhunters Tan does not know that he is the only soul who can reunite the scattered consciousness of Syalonis He doesn't even believe in her He was raised in the stone giant settlement as one of a thousand slaves and has risen to the position of supreme gladiator of the clan Tan only plans to free his people from the brutal tyranny of his giant masters the approaching force of corrupted angels have different plans

**Relational Archaeologies** Christopher Watts,2014-04-11 Many of us accept as uncontroversial the belief that the world is comprised of detached and disparate products all of which are reducible to certain substances Of those things that are alive we acknowledge that some have agency while others such as humans have more advanced qualities such as consciousness reason and intentionality So deeply seated is this metaphysical belief along with the related distinctions we draw between subject object mind body and nature culture that many of us tacitly assume past groups approached and apprehended the world in a similar fashion Relational Archaeologies questions how such a view of human beings other than human creatures and things affects our reconstruction of past beliefs and practices It proceeds from the position that in many cases past societies understood their place in the world as positional rather than categorical as persons bound up in reticular arrangements with similar and not so similar forms regardless of their substantive qualities Relational Archaeologies explores this idea by emphasizing how humans animals and things come to exist by virtue of the dynamic and fluid processes of connection and transaction In highlighting various counter Modern notions of what it means to be and how these can be teased apart using archaeological materials contributors provide a range of approaches from primarily theoretical historicized treatments of the topic to practical applications or case studies from the Americas the UK Europe Asia and Australia
