Asian Competitors: Marketing For Competitiveness In The Age Of Digital Consumers Philip Kotler, Hermanwan Kartajaya, Den Huan Hooi, 2019-03-15 Today's dynamic and uncertain environment has contributed to the changing nature of markets. In order for companies to keep up, they will need to embark on new wave marketing to ride the wave of opportunities provided by the changes in the environment such as the digital revolution. This is critical all over the world but none more so than in Asia. Asia is not only the world's biggest market but also the fastest growing. It is therefore essential for marketers to understand the dynamics of Asian companies and what they have to offer to the wider world. This book analyzes competitive companies from 18 Asian countries that have successfully practiced new wave marketing and in so doing provide invaluable lessons that others may find useful. Comprehensive case studies are used not only to describe how some of Asia's best companies compete but also to analyze the concepts of new wave marketing; their actions are based on this. This book is unique in its depth and breadth of cases from companies in the ASEAN region to North East Asia including Mongolia and SAARC. The authors of this book, Professor Philip Kotler (arguably the Father of Modern Marketing), Hermawan Kartajaya from Indonesia and Hooi Den Huan from Singapore, are all experts in their field and have previously produced other bestsellers. This book, with its focus on real-life examples of competitive Asian companies in the age of digitalization, complements the principles and theoretical frameworks of new wave marketing that are detailed in its sister book. Together, these books provide a comprehensive picture of the changing Asian marketing landscape.

The Emerging Markets Century Antoine van Agtmael, 2007-01-09

In this vital book, visionary international investment manager Antoine van Agtmael, the pioneer who coined the term emerging markets, pulls back the curtain on the new powerhouses of the world economy. Picking up where Thomas Friedman's *The World Is Flat* left off, he persuasively demonstrates that the world's center of gravity is already tipping decisively in favor of the emerging economies. With this seismic shift, competitive challenges and investment risks are also being dramatically transformed, while new opportunities are arising for those who are alert to them. A new breed of world leading companies are catching their Western competitors off guard. Household names of today, IBM, Ford, Sony and Shell are in danger of becoming has-beens as these more innovative new superstars in the emerging markets claim dominance. Understanding how they have become world class market leaders and where they are taking the world economy is crucial to understanding not only the future of globalization but the future of Western competitiveness. Each year we are buying more planes from Brazil's Embraer, refrigerators from China's Haier, appliance maker, smart cell phones from Taiwan's HTC and gas from Russia's Gazprom. How have these relative unknowns come so far in the world markets so fast? What are they doing right that their Western competitors are doing wrong and how can Western companies face the intensifying challenges and survive? With in-depth inside knowledge of these emerging powerhouses that's based on his thirty years of working, traveling and investing in emerging markets and his extraordinary access to the leading companies, van Agtmael trains his experienced analyst's eye on twenty-five of the top emerging giants, taking readers into the executive suites and labs where they are outmaneuvering their Western rivals. Profiling these major players such as Korea's Samsung Electronics, China's computer maker Lenovo, Brazil's iron ore giant CVRD and India's Infosys, van Agtmael divulges their strategies for growth and analyzes how their rise to

dominance will change our lives His unique insights point the way to how we in the West can capitalize on the opportunities these companies represent while also mobilizing a powerful response to the challenges they present The Emerging Markets Century is a compelling and necessary read for anyone who wants to understand the true magnitude of change under way in the global economy today
