Government sources as well as my own proprietary information from 20 years of extensive occupational research. The Government sources are U S Department of Labor DOL programs. For example, I have incorporated information from DOL's new O NET Database which includes the occupation titles and definitions, common job tasks, key skills and abilities, and related occupations. I have added the most recent employment statistics and wage information from DOL's Bureau of Labor Statistics. Finally, from our own research, I have added career path and real people career dialogue elements and have enhanced and expanded the DOL information throughout. For example, the O NET Related Occupations lists were significantly expanded and education training information along with growth and wage data were added to make occupational comparisons more meaningful. The Job Tasks have been expanded to make them more useful. The education and training information is based on DOL's Typical Education Levels but has also been expanded for this book. I have also written or rewritten many of the job outlook and analysis statements that are incorporated into the Employment Outlook sections. Finally, I have included a number of resource guides to help job seekers and career explorers reach their goals. Beginning on page 617, there are guides on Planning Your Career, Researching Occupations, Education Training Options, Looking for a Job, Competing for a Job, Writing a Resume, Writing a Cover Letter, Completing the Application, Preparing for the Interview, and Common Interview Questions. There are countless numbers of books, both good and bad, on all of these subjects, so I've included a list of my favorite books on my website under Readers Resources, see [www.cassio.com](http://www.cassio.com). Also included on this website is an online guide to State Training Postsecondary Education Directories and a list of my Favorite Job Websites. Best regards, Jim Cassio, [www.cassio.com](http://www.cassio.com). An absolutely essential career reference for finding comprehensive job information spanning a total of 150 occupations.
