The European Green Deal in Education Sarah Anne McDonagh, Alessandro Caforio, Alessandro Pollini, 2024-11-28 This book shares real life case studies taken from GreenSCENT a three year EU funded project that promotes sustainability through the development of digital platforms and tools green education programme and climate and environmental literacy certification To date there has been little work published on the application of the European Green Deal in educational programmes and while environmental education is very dynamic at present this area has received scant attention Seeking to remedy this critical omission this book represents the first application of the Green Deal topics in the classroom It examines environmental education from an academic perspective looking specifically at the development of digital tools used to promote sustainability and provides recommendations for their practical application The authors also discuss ways to engage larger and more diverse audiences children young people and adults across socio economic cultural and ethnic backgrounds on the topic of sustainability through activities such as air quality monitoring Climathons and Youth Assemblies As the highlighting factors are inclusivity accessible design and responsible research and innovation this volume will be of great interest to students and scholars of European environmental policy and environmental education

Reliability Data Collection and Use in Risk and Availability Assessment Hans-Jörg Wingender, 2012-12-06 Reliability data collection and its use in risk and availability assessment is a subject of increasing importance The founders of EuReData and in particular Arne Ullman the originator and first Chairman of the Association recognised the need for a body capable of acting as a catalyst and providing a unified approach to this subject It is therefore a prevailing objective of the European Reliability Databank Association to initiate and support contact between experts companies and institutions active in reliability engineering and research Although the first and principle interest of EuReData is reliability data and data banks the Association is aware that these are tools that are used with others to establish and maintain reliability and safety It is

with this objective that EuReData regularly holds conferences and seminars covering a range of reliability topics
