Encyclopedia of Education Economics and Finance Dominic J. Brewer, Lawrence O. Picus, 2014-08-25 Economics can be a lens for understanding the behavior of schools districts states and nations in meeting education needs of their populaces as well as for understanding the individual decisions made by administrators teachers and students Insights from economics help decision makers at the state level understand how to raise and distribute funds for public schools in an equitable

manner for both schools and taxpayers Economics also can assist researchers in analyzing effects of school spending and teacher compensation on student outcomes And economics can provide important insights into public debates on issues such as whether to offer vouchers for subsidizing student attendance at private schools This two volume encyclopedia contains over 300 entries by experts in the field that cover these issues and more Features This work of 2 volumes in both print and electronic formats contains 300 350 signed entries by significant figures in the field Entries conclude with cross references and suggestions for further readings to guide students to in depth resources Although organized in A to Z fashion a thematic Reader s Guide in the front matter groups related entries by topic Also in the front matter a chronology provides students with historical perspective on the development of education economics and finance as a field of study The entire work concludes with a Resources appendix and a comprehensive Index In the electronic version the index Reader s Guide and cross references combine to provide effective search and browse capabilities

Duck and Cover Rick Ginsberg,Yong Zhao,2023 Explore what the authors label educational duck and cover policies ideas that are no longer useful or are not scientifically sound or even logical The authors offer recommendations for reconsidering replacing or just removing these dubious practices Topics include standardized testing college and career readiness social and emotional learning teaching evaluations and professional development

Nuclear Scholars Initiative Sarah Weiner,2014-01-27 The 2013 class of Nuclear Scholars selected from a very competitive applicant pool contained some of the best and brightest young professionals in the nuclear field Drawn from graduate programs the national labs the civil service and the U S military these Nuclear Scholars participated in six monthly workshops that focused on a wide range of nuclear topics These topics included extended deterrence and assurance stockpile stewardship nuclear materials security Iranian and North Korean proliferation international nonproliferation norms and treaties missile defense and nuclear targeting The program culminated in a final meeting at which the Nuclear Scholars presented their own research to a panel of senior experts The papers resulting from these presentations are contained in this year s volume

The Quick Fix Jesse Singal,2021-04-06 An investigative journalist exposes the many holes in today s bestselling behavioral science and argues that the trendy TED Talk friendly psychological interventions that are so in vogue at the moment will never be enough to truly address social injustice and inequality With their viral TED talks bestselling books and counter intuitive remedies for complicated problems psychologists and other social scientists have become the reigning thinkers of our time Grit and power posing promised to help overcome entrenched inequalities in schools and the workplace the Army spent hundreds of millions of dollars on a positive psychology intervention geared at preventing PTSD in its combat soldiers and the implicit association test swept the nation on the strength of the claim that it can reveal unconscious biases and reduce racism in police departments and human resources departments But what if much of the science underlying these blockbuster ideas is dubious or fallacious What if Americans longstanding preference for simplistic self help platitudes is exerting a pernicious influence on the way behavioral science is

communicated and even funded leading respected academics and the media astray In *The Quick Fix* Jesse Singal examines the most influential ideas of recent decades and the shaky science that supports them He begins with the California legislator who introduced self esteem into classrooms around the country in the 1980s and the Princeton political scientist who warned of an epidemic of youthful superpredators in the 1990s In both cases a much touted idea had little basis in reality but had a massive impact Turning toward the explosive popularity of 21st century social psychology Singal examines the misleading appeal of entertaining lab results and critiques the idea that subtle unconscious cues shape our behavior As he shows today's popular behavioral science emphasizes repairing improving and optimizing individuals rather than truly understanding and confronting the larger structural forces that drive social ills Like Anand Giridharadas's *Winners Take All* *The Quick Fix* is a fresh and powerful indictment of the thought leaders and influencers who cut corners as they sell the public half baked solutions to problems that deserve more serious treatment *A Carbon Primer for the Built Environment* Simon

Foxell,2014-01-03 In a world increasingly concerned about the impact of carbon dioxide and other greenhouse gases in the atmosphere on global climate the *A Carbon Primer for the Built Environment* will provide an understanding of the science and the public policy and regulation intended to tackle climate change It will spell out the essential information needed for navigating through the growing regulatory maze with confidence The book will Provide an explanation of climate change why carbon has been targeted as the main culprit and how this will impact the working lives of architects Explain key concepts such as carbon footprinting contraction convergence concentration based targets the Energy Performance of Buildings Directive decarbonising supply and reducing energy demand as well as the relevance of relevant government targets and international agreements Suggest an overall framework for achieving the carbon reduction targets and the requirements that will place on building designers Outline requirements and common standards and codes providing guidance on compliance mechanisms Suggest and examine likely models for future practice The book will be essential reading for anyone wanting to familiarise themselves with the new landscape of carbon reduction in the built environment with a particular focus on building design It will also provide an accessible reference volume for information on particular policies terms and initiatives as well as key data and numbers that will assist initial carbon calculations *Child Development* Laura E. Levine,Joyce

Munsch,2016-12-01 In the Third Edition of the topically organized *Child Development An Active Learning Approach* authors Laura E Levine and Joyce A Munsch invite students to take an active journey toward understanding the latest findings from the field of child development Using robust pedagogical tools built into the chapter narratives students are challenged to confront myths and misconceptions participate in real world activities with children and independently and utilize video resources and research tools to pursue knowledge and develop critical thinking skills on their own This new edition covers the latest findings on developmental neuroscience positive youth development the role of fathers and more with topics of diversity and culture integrated throughout More than a textbook this one of a kind resource will continue to serve students

as they go on to graduate studies to work with children and adolescents professionally and to care for children of their own
