Philosophy

As a young girl, I was very interested in the world around me. I was always asking questions and trying to understand how things worked. I was particularly interested in the natural world and the sciences. I would spend hours reading books about dinosaurs, space, and the human body. I was also very curious about the world of the mind and the soul. I would often think about the meaning of life and the purpose of existence. I was always looking for answers and trying to make sense of the world around me. I was a very curious and inquisitive child, and I was always looking for new things to learn and discover.
