power and abilities that they can express and produce I've always seen things differently than the average person not that there aren't people who would agree with me and see things how I do but I haven't met them But when someone sees something that confuses them I understand things that people don't understand I find fascinating I'm not crazy or anything I just have a unique eye for things that we encounter on a day to day basis I see more to life earth nature outer space heaven and hell a lot of things that go unexpressed because it's something that just comes and becomes apart of what I believe in which happen to be a lot of things and how I see things Most of my inspirations come from life experiences a relationship with someone I got very attached too frustrations about how I grew up not that it was all bad being abandoned feeling alone writing was a way to keep me from losing my mind and not caring if I was going down hill I started to live inside my head and use metaphors about how I saw life as it was Training in martial arts played a big role in my writing whatever I felt at the time and however long it followed me One of the things I'm coming to realize is that the bad things never leave us because they are the memories that haunt us instead of ignoring them or denying them we can use them and shape them into a work of art or whatever you prefer that fits who you are it depends on how far you look inside yourself sometimes you can look so far that it scares you and you never knew you had that side to you The journey inside the mind and feelings is a never ending story that continues even after death it's what makes your soul that determines how well you'll be heard I enjoy writing but yeah when I think about it I don't want to write but after I start it's like finding myself all over again and something gets reinvented in some way
