Office of Flying Safety, 1944 The Framework of Military Leadership, 2nd Edition Murat Şengöz, 2023-09-20

The contemporary security environment is characterized by an increase in complexity, shifting dynamics, and a rising number of wars being carried out in a vague and flexible warfare environment. Naturally, this requires military leaders to adapt more rapidly to the challenges than ever before. Today, army commanders have to behave more like diplomats, intellectuals, academics, and technicians in this respect. This book provides an eclectic and analytic conceptual study regarding military leadership and its components and dynamics. This work on the phenomenon of military leadership is a valuable original reference book for academics, scientists, students, and professional members of the armed forces, as well as for anyone else interested in personal development issues. This second edition includes two new chapters: On The Basic Leadership Requirements That Today's Leaders Are Expected To Possess and From Authoritarian To Authentic Military Leadership, and updated versions of many chapters from the first edition.

SCM Studyguide: Church History Stephen Spencer, 2013-08-27

An introduction to the study of the ways the church has evolved in its corporate life since its birth in the first century. Special attention is given to studying its changing relationship and interaction with the surrounding societies in which it has existed. The intended readership will be those training for ministry in English speaking churches, so the studyguide will concentrate on those aspects of this subject of most relevance to this group. This means there will be greater attention to developments in the West than in the East, especially in later centuries, and to topics such as the nature of ministry, the sacraments, places of worship, authority in the church, and mission. These will be examined at each period of church history in each chapter to provide reference points of comparison throughout the book. Each chapter will also contain a specific case study presenting extracts of some key documents with notes, commentary, and questions for discussion to allow readers to develop skills in historical research. General discussion questions and reading lists will be provided at the end of each chapter. The final chapter will provide guidance for the study of the history of the student's own church and community.
