Excerpt from *Schools of Nursing Requirements and Curriculum* The administration of the Nurses Registration Act is now in its third year of operation At the beginning of the work and before the training schools for nurses could be accredited a pamphlet was issued setting forth the requirements upon which the schools could be accredited also certain recommendations and a suggested course of study The schools have generally met these minimum requirements have adopted many of the recommendations and have followed the suggested course of study The teaching of nursing like all branches of education is under going reconstruction It therefore becomes necessary from time to time to revise the requirements for our schools that we may meet these increasing demands and continue to maintain a good standard of nursing education in California The course herein outlined has been arranged with the view of cover ing all branches of nursing under the major subjects Medicine Sur gery Obstetrics and Pediatrics The time allowed for each subject and its allied branches is considered sufficient to maintain a proper balance of instruction The academic year is divided into two parts of sixteen weeks each commencing October 1st to February 1st and from February 1st to June 1st which will allow for vacations

during the summer period This arrangement is advisable in consideration of the schools main taining affiliation and in order to secure uniformity in arrangement of studies in accredited schools The practical work is arranged according to the calendar year and relates as closely as possible with the class work in the academic year The first year should be considered largely preparatory the first six months probationary The conferring of the uniform and cap may occur at any period during this time in accordance with the regulations of the school and at the discretion of the faculty About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
