demonize white privilege as an invisible enemy that's supposedly around every corner. Even sports and late night comedy shows are employed for political causes violating the once unwritten cardinal rules of their industries. In this groundbreaking work, media analyst Mark Dice details the true power of entertainment and proves how it is being used to wage a psychological war against the world. **Mental Floss: The Curious Viewer** Jennifer M. Wood, The Team at Mental Floss, 2021-10-19. Subtitle from remote control graphic on cover. **The Aesthetics of Violence in Contemporary Media** Gwyn Symonds, 2011-11-03. The topic of violence in the media seems as inundated as can be. Countless studies and research projects have been conducted mostly to show its negative effects on society. What Gwyneth Symonds proposes though takes this significant topic one step further: studying the aesthetics of media violence. By defining key terms like the graphic nature and authenticity of violent representations and discussing how those definitions are linked to actual violence outside the film and television screen, Symonds broadens the arena of study. Engagingly written, *The Aesthetics of Violence in Contemporary Media* fills an important gap. Symonds uses existing studies for the empirical audience reception data together with discussions of the different representations of violence to look at violence in the media as an art form in of itself. By looking at *The Simpsons*, *Bowling for Columbine* and Norma Khouri's *Forbidden Love* just to name a few, Symonds cross-analyzes violence in multiple media to see their affective role in audience reception, an important aspect when discussing media. The book strikes a balance between the reader's need to see how theory matches what actually happens in the texts in question and the demands of a theoretical overview. **Very Special Episodes** Jonathan Cohn, Jennifer Porst, 2021-08-13. *Very Special Episodes* examines how the quintessential very special episode format became a primary way in which the television industry responded to and shaped social change, cultural traumas and industrial transformations. With essays covering shows ranging from the birth of Desi Arnaz Jr. on *I Love Lucy* to contemporary examples such as a delayed episode of *Black-ish* and the streaming era phenomenon of the *Very Special Seasons* of *UnReal* and *13 Reasons Why*, this collection seriously and critically uses the very special episode to chart the history of American television and its self-identified status as an arbiter of culture. **Watching TV** Harry Castleman, Walter J. Podrazik, 2024-12-16. Castleman and Podrazik present a season-by-season narrative that encompasses the eras of American television from the beginning in broadcast through cable and now streaming. They deftly navigate the dizzying array of contemporary choices so that no matter where you start on the media timeline, *Watching TV* provides the context and background to this multi-billion dollar enterprise. Drawing on decades of research, the authors weave together personalities, popular shows, corporate strategies, historical events and changing technologies, enhancing the main commentary with additional elements that include fall prime time schedule grids for every season, date box timelines, highlighted key text and selected photos. Full of facts, first insights and exploits from now back to the earliest days, *Watching TV* is the standard chronology of American television and reading it is akin to channel surfing through history. The fourth edition updates the story into the 2020s and looks ahead to the next waves of change. This new
