## Law In Context:

**Law in Context** Stephen Bottomley, Simon Bronitt, 2022-02-17      **Private Law in Context** Loth, Marc, 2022-02-15  
Contemplating the nature practice and study of private law this comprehensive book offers a detailed overview of private law's theoretical dimensions. It promotes a reflective attitude towards the topic encouraging the reader to question how private law is practiced and studied what this implies for their own engagement in the field and what kind of private lawyer they want to be. This thought provoking book draws on examples from a range of legal systems to provide philosophical perspectives on the diverse dimensions of private law.      Employment Law in Context David Cabrelli, 2016 A contextual rigorous treatment of employment law featuring a running case example to show exactly how the law works and including extracts from key cases and source materials.      The Common European Sales Law in Context Gerhard Dannemann, Stefan Vogenauer, 2013-03-21 European Contract Law unification projects have recently advanced from the Draft Common Frame of Reference 2009 to a European Commission proposal for an optional Common European Sales Law 2011 which is to facilitate cross border marketing. This book investigates for the first time how CESL and DCFR rules would interact with various aspects of domestic law represented by English and German law. Nineteen chapters co-authored by British and German scholars examine such interface issues for eg pre contractual relationships notions of contract formation interpretation and remedies extending to non discrimination third parties transfers or rights aspects of property law and collective proceedings. They go beyond a critical analysis of CESL and DCFR rules by demonstrating where and how CESL rules would interact with neighbouring areas of English and German law before English and German courts how domestic traditions might influence the application which aspects might motivate sellers and buyers to choose or reject CESL and which might serve as model for national legislators. The findings are summarized in the final two chapters.      **Law in Context** Stephen Bottomley, Neil Gunningham, 1991      **The law in context series**, 2017      *Medieval law in context* Anthony Musson, 2020-01-03 Examines how medieval people at all social levels thought about law justice and politics as well as their role in society. Provides a clear structured view of judicial developments and experience of litigation in the thirteenth and fourteenth centuries. Makes the specialised area of law accessible for the general reader interested in the medieval period.      **Law in Context**, 1991

*Supporting Legal Capacity in Socio-Legal Context* Mary Donnelly, Rosie Harding, Ezgi Tascioglu, 2022-03-10 This collection brings together leading international socio legal and medico legal scholars to explore the dilemma of how to support legal capacity in theory and practice Traditionally decisions for persons found to lack capacity are made by others generally without reference to the person and this applies especially to those with cognitive and psycho social disabilities This book examines the difficulties in establishing effective and deliverable supported decision making concluding that approaches to capacity need to be informed by a grounded understanding of how it operates in real life contexts The book focuses on the UN Convention on the Rights of Persons with Disabilities CRPD which recognises the equal right to legal capacity of people with disabilities and requires States Parties to provide support for the exercise of this right However 10 years after the CRPD came into force the shift to legal frameworks for supported decision making remains at best only partial With 16 chapters written by contributors from the UK Canada Finland India Ireland Spain Sweden and Turkey the collection takes a comparative and interdisciplinary approach Many of the contributors have been directly involved in law reform processes in their home jurisdictions and thus can combine both academic expertise and practical grounded awareness of the challenges of legal change
