The Writing Revolution can make a dramatic difference And the method does more than improve writing skills It also helps Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities The Writing Revolution is as much a method of teaching content as it is a method of teaching writing There s no separate writing block and no separate writing curriculum Instead teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction But perhaps what s most revolutionary about the TWR method is that it takes the mystery out of learning to write well It breaks the writing process down into manageable chunks and then has students practice the chunks they need repeatedly while also learning content Writing Argumentative Essays Nancy V. Dialectical Rhetoric Bruce McComiskey, 2015-07-01 In *Dialectical Rhetoric* Bruce McComiskey argues that the historical conflict between rhetoric and dialectic can be overcome in ways useful to both composition theory and the composition classroom Historically dialectic has taken two forms in relation to rhetoric First it has been the logical development of linear propositions leading to necessary conclusions a one dimensional form that was the counterpart of rhetorics in which philosophical metaphysical and scientific truths were conveyed with as little cognitive interference from language as possible Second dialectic has been the topical development of opposed arguments on controversial issues and the judgment of their relative strengths and weaknesses usually in political and legal contexts a two dimensional form that was the counterpart of rhetorics in which verbal battles over competing probabilities in public institutions revealed distinct winners and losers The discipline of writing studies is on the brink of developing a new relationship between dialectic and rhetoric one in which dialectics and rhetorics mediate and negotiate different arguments and orientations that are engaged in any rhetorical situation This new relationship consists of a three dimensional hybrid art called dialectical rhetoric whose method is based on five topoi deconstruction dialogue identification critique and juxtaposition Three dimensional dialectical rhetorics function effectively in a wide variety of discursive contexts including digital environments since they can invoke contrasts in stagnant contexts and promote associations in chaotic contexts *Dialectical Rhetoric* focuses more attention on three dimensional rhetorics from the rhetoric and composition community
