book is for you Be bold Take on your project This book will hold your hand every step of the way and guide you to success  
 YOU CAN DO IT Why does a Cuckoo Clock stop Working Most likely it is because the works are dirty need oiling or most  
 likely both When the clock stops think of it as the oil light is on It s a cry for help Without oil the metal parts grind on each  
 other causing serious wear and damage Oil also attracts dust which can make the oil gummy and add drag to its operation  
 until it can no longer overcome the friction If a clock is oiled regularly every three to five years chances are you will only ever  
 need to reoil your clock If the clock is allowed to run until it stops the only sure way to service it is to remove the works from  
 its case dismantle the parts clean service and put the movement back together with fresh oil and correct adjustment This
