Description

This comprehensive introduction to art and design explores making artifacts as a process of making meaning. "Making Art: Form and Meaning" offers a framework for understanding how all the aspects of an artwork—subject matter, medium, form, process, and contexts—interact. The text's wide array of examples and its emphasis on late-modernism and postmodern art give students a thorough look at the expressive possibilities of traditional design elements and principles and contemporary practices, including the use of computer-based, time-based, and lens-based media.

With artist quotes, clearly defined key terms, and a chapter dedicated to studio critiques, "Making Art" allows students to join the conversation of contemporary art and gives them a jump start in thinking and talking about their work using the language and concepts of today's art world.

Connecting Visual Literacy to Theory Ricardo Lopez-León,Dana Statton Thompson,2024-07-12 This volume seeks to close the gap between education systems across the world that remain

systematically devoted to understanding our world through text rather than images Through an exploration of the contributions of well and lesser known visual thinkers from across disciplines and geographies the contributors offer contemporary appraisals and modern re conceptualizations of the subject The book illuminates how experts from various disciplines ranging from art communication education and philosophy laid the foundations for what we know today as visual literacy These foundations and innovative ways of thinking and understanding images have been disruptive but until now have been relatively understudied As such the chapters examine the context of individual thinkers expanding upon famous theories and providing new insight into why these visual and cognitive processes are imperative to learning and education and to disciplines spanning art history museum studies philosophy photography and more The authors all members of the International Visual Literacy Association IVLA are committed to advancing the study of visual literacy by raising new questions and proposing new routes of inquiry A unique and timely exploration of the way we derive meaning from what we see and how we interact with our visual environment it will appeal to researchers scholars and educators from a range of interdisciplinary backgrounds across art art education art history design information science photography and visual communication

Literature as an Art Form - Evolving Intermedial Literary Landscape Asunción López-Varela Azcárate, 2025-07-02 Literature as an Art Form Evolving Intermedial Literary Landscape brings together sixteen scholarly contributions that explore literature's ongoing transformation across media cultures and technologies This anthology traces the dynamic interplay between literature and visual sonic performative and algorithmic forms ranging from illuminated manuscripts and oral traditions to digital texts and anime Rejecting the notion of literature as a fixed verbal art the chapters highlight its status as a transmedial evolving practice shaped by and shaping the environments in which it is situated Each essay examines how literature migrates across modalities revealing it as a mutable process of technopoiesis Together they offer a compelling vision of literature not as an autonomous artefact but as a fluid cultural phenomenon whose conditions of existence are inseparable from intermedial exchange

The Oxford Handbook of Ethics and Art James Harold, 2023 Art has not always had the same salience in philosophical discussions of ethics that many other elements of our lives have There are well defined areas of applied ethics corresponding to nature business health care war punishment animals and more but there is no recognized research program in applied ethics of the arts or art ethics Art often seems to belong to its own sphere of value separate from morality The first questions we ask about art are usually not about its moral rightness or virtue but about its beauty or originality However it is impossible to do any serious thinking about the arts without engaging in ethical questions

Wittgenstein and Modernism Michael LeMahieu, Karen Zumhagen-Yekplé, 2017 Wittgenstein and Modernism is the first collection to address the rich vexed and often contradictory relationship between modernism the 20th century's predominant cultural and artistic movement and Wittgenstein the most preeminent and enduring philosopher of the period Although Wittgenstein famously declared that philosophy ought really to be written only as a form of poetry we have yet to

fully consider how Wittgenstein's philosophy relates to the poetic literary and artistic production that exemplifies the modernist era in which he lived and worked. Featuring contributions from scholars of philosophy and literature, the contributors put Wittgenstein's writing in dialogue with work by poets and novelists James Woolf, Kafka, Musil, Rilke, Hofmannsthal, Beckett, Bellow, and Robinson, as well as philosophers and theorists Karl Kraus, John Stuart Mill, Walter Benjamin, Michael Fried, Stanley Cavell. The volume illuminates two important aspects of Wittgenstein's work related to modernism and postmodernism: form and medium. Each of Wittgenstein's two major works not only advanced a revolutionary conception of philosophy but also developed a revolutionary philosophical form to engage his readers in a mode of philosophical practice. As a whole, this volume comprises an overarching argument about the importance of Wittgenstein for understanding modernism and the importance of modernism for understanding Wittgenstein.

Educational, Psychological, and Behavioral Considerations in Niche Online Communities Venkatesh, Vivek, Wallin, Jason, Castro, Juan Carlos, Lewis, Jason Edward, 2014-02-28. Online communities continue to evolve as more people take on a virtual presence. This shift in online communities and the diversity of individuals populating the web has allowed for the emergence of virtual communities centered on niche topics of interests ranging from heavy metal music to indigenous and native culture. *Educational, Psychological, and Behavioral Considerations in Niche Online Communities* examines the presence of online communities centered around niche topics of interest and the impact of these virtual spaces on community members. Taking perspectives from interdisciplinary fields such as sociology, psychology, and education, this publication will appeal to educators, psychologists, behaviorists, students, and researchers interested in the impact of virtual communities on individuals as well as the opportunities these online communities present.

Arts Management Carla Walter, 2015-05-22. *Arts Management* is designed as an upper division undergraduate and graduate level text that covers the principles of arts management. It is the most comprehensive up-to-date and technologically advanced textbook on arts management on the market. While the book does include the background necessary for understanding the global arts marketplace, it assumes that cultural fine arts come to fruition through entrepreneurial processes and that cultural fine arts organizations have to be entrepreneurial to thrive. Many cases and examples of successful arts organizations from the United States and abroad appear in every chapter. A singular strength of *Arts Management* is the author's skilful use of in-text tools to facilitate reader interest and engagement. These include learning objectives, chapter summaries, discussion questions, and exercises, case studies, and numerous examples and cultural spotlights. Online instructor's materials with PowerPoints are available to adopters.

Mental Health, Spirituality, and Religion in the Middle Ages and Early Modern Age Albrecht Classen, 2014-07-28. This volume continues the critical exploration of fundamental issues in the medieval and early modern world here concerning mental health, spirituality, melancholy, mystical visions, medicine, and well-being. The contributors, who originally had presented their research at a symposium at The University of Arizona in May 2013, explore a wide range of approaches and materials.

pertinent to these issues taking us from the early Middle Ages to the eighteenth century capping the volume with some reflections on the relevance of religion today Lapidary sciences matter here as much as medical psychological research combined with literary and art historical approaches The premodern understanding of mental health is not taken as a miraculous panacea for modern problems but the contributors suggest that medieval and early modern writers scientists and artists commanded a considerable amount of arcane sometimes curious and speculative knowledge that promises to be of value and relevance even for us today once again Modern palliative medicine finds for instance intriguing parallels in medieval word magic and the mystical perspectives encapsulated highly productive alternative perceptions of the macrocosm and microcosm that promise to be insightful and important also for the post modern world
