Chu,Jane Waples,2003 **Crossing Design Boundaries** Paul Rodgers,Libby Brodhurst,Duncan Hepburn,2005-11-10 This
book presents over 100 papers from the 3rd Engineering Product Design Education International Conference dedicated to
the subject of exploring novel approaches in product design education The theme of the book is Crossing Design Boundaries
which reflects the editors wish to incorporate many of the disciplines associated with and integral to modern product design
and development pursuits Crossing Design Boundaries covers for example the conjunction of anthropology and design the
psychology of design products the application of soft computing in wearable products and the utilisation of new media and
design and how these can be best exploited within the current product design arena The book includes discussions
concerning product design education and the cross over into other well established design disciplines such as interaction
design jewellery design furniture design and exhibition design which have been somewhat under represented in recent years
The book comprises a number of sections containing papers which cover highly topical and relevant issues including Design
Curriculum Development Interdisciplinarity Design Collaboration and Team Working Philosophies of Design Education
Design Knowledge New Materials and New Technologies in Design Design Communication Industrial Collaborations and
