Malta In The European Union:

Malta in the European Union Mark Harwood, 2016-05-13 Malta has bucked the trend of its EU Mediterranean neighbours in many ways This smallest of EU states barely dipped into recession during the global financial crisis and remains a stable member of the Eurozone whilst also having one of the lowest infringement rates and highest transposition of EU law records amongst the 28 member states Providing the first comprehensive study of Malta s complex road to EU membership this book looks at the impact of membership on the country s political structures and processes and explains the principal factors that have conditioned the country s Europeanization experience Reflecting Malta s unique and often contentious road to membership the book explores the historical context and outlines how Maltese processes and policies have changed since membership and whether a causative link exists between these changes and Malta s membership of the EU A wide range of primary and secondary sources facilitate the study complemented by a series of interviews with a broad range of Malta s political and social actors as well as individuals from EU institutions This depth of analysis enables a holistic view of Malta s first decade of EU membership and helps establish the fundamental characteristics of Malta s unique Europeanization experience

Malta and the European Union Julia Neumeyer, 2012-02-27 How do factors such as small size insularity vulnerability and remoteness influence a small state s behaviour in international relations What are the major problems and events shaping Malta EU relations How can Malta s position in the EU be described In which way can this small island state defend and enforce its own interests in such a dominant regional organisation in which all members varying in size and power try to protect and press ahead their specific aims This thesis is an attempt to answer these questions and to provide a basis for further discussions and elaboration

Small States and the European Union Lino Briguglio, 2016-06-10 The Economies of European Union Small Member and Candidate States deals with the small states and candidate states of the EU with a focus on their economic structure and performance and the impact of EU membership past actual and potential on the economy The small states to be covered are those with a population of 3 million or less namely Cyprus Estonia Iceland Latvia Lithuania Luxembourg Malta Macedonia Montenegro and Slovenia This title adds to the literature on the EU on regional integration generally and on small states It delves into the special constraints of small economic size and examines why and how the small states of Europe manage to compete albeit not without difficulty with the larger states in the block where free trade prevails The book answers the following research questions What are the special economic development constraints faced by the small states of the EU What policy options have been used by or are available to these small states to address these constraints How can the economic resilience and competitiveness of these states be enhanced Has EU membership been mostly advantageous for these small states What are the economic prospects for these states as EU member states The book is aimed primarily for students of EU affairs and of regional integration in general It will also be useful for students of subjects relating to small states It may also appeal to policy makers of small states and to officials of

international and regional organisations that have a constituency that includes small states **The Implementation and Enforcement of European Union Law in Small Member States** Ivan Sammut, Jelena Agranovska, 2021-03-11

The objective of this book is to examine how the legal order of Malta the EU's smallest Member State manages to cope with the obligations of the EU's *acquis communautaire*. As far as the legal obligations are concerned size does not matter. Smaller Member States have the same obligations as the largest yet they have to meet these same obligations with very fewer resources. This book examines how the Maltese legal system manages to fulfil its obligations both in terms of the supremacy of EU law as well as how the substantive EU law is transposed and implemented. It also explores how Maltese courts look at EU law and how they manage or not manage to enforce it within the context of national law. It can serve as a model to demonstrate how EU law is being implemented in the smallest Member State and can serve as a basis to study the effectiveness of EU law into the domestic law of its Member States in general **The Europeanization of Interest Groups in Malta and Ireland** Mario Thomas Vassallo, 2016-04-29

This comparative work examines the political and social context of interest groups in Malta and Ireland two small island states at the periphery of an integrated continent. The author explores the impact of the European Union on their civil society's organizations and their gradual transformation at differing speeds and logics of Europeanization **Malta in the European Union** Mark Harwood, 2016-05-13 Malta has bucked the trend of its EU Mediterranean neighbours in many ways. This smallest of EU states barely dipped into recession during the global financial crisis and remains a stable member of the Eurozone whilst also having one of the lowest infringement rates and highest transposition of EU law records amongst the 28 member states. Providing the first comprehensive study of Malta's complex road to EU membership this book looks at the impact of membership on the country's political structures and processes and explains the principal factors that have conditioned the country's Europeanization experience. Reflecting Malta's unique and often contentious road to membership the book explores the historical context and outlines how Maltese processes and policies have changed since membership and whether a causative link exists between these changes and Malta's membership of the EU. A wide range of primary and secondary sources facilitate the study complemented by a series of interviews with a broad range of Malta's political and social actors as well as individuals from EU institutions. This depth of analysis enables a holistic view of Malta's first decade of EU membership and helps establish the fundamental characteristics of Malta's unique Europeanization experience **Doing Business with Malta** Marat Terterov, Jonathan Reuvid, 2005

Originally published in the pre EU accession period this E Book edition of *Doing Business with Malta* has been updated to take account of the post accession changes to the legal and fiscal environment. It remains a definitive appraisal of the economic system and investment climate including an examination of the legal structure and business regulation information on the financial sector and unique best practice on all aspects of trading with and investing in Malta. Constitutions in European and Global Governance: Democracy, Rights, the Rule of Law Anneli Albi, Samo

Bardutzky, 2019-05-29 This two volume book published open access brings together leading scholars of constitutional law from twenty nine European countries to revisit the role of national constitutions at a time when decision making has increasingly shifted to the European and transnational level. It offers important insights into three areas. First it explores how constitutions reflect the transfer of powers from domestic to European and global institutions. Secondly it revisits substantive constitutional values such as the protection of constitutional rights, the rule of law, democratic participation and constitutional review along with constitutional court judgments that tackle the protection of these rights and values in the transnational context e.g. with regard to the Data Retention Directive, the European Arrest Warrant, the ESM Treaty and EU and IMF austerity measures. The responsiveness of the ECJ regarding the above rights and values along with the standard of protection is also assessed. Thirdly challenges in the context of global governance in relation to judicial review, democratic control and accountability are examined. On a broader level the contributors were also invited to reflect on what has increasingly been described as the erosion or twilight of constitutionalism or a shift to a thin version of the rule of law, democracy and judicial review in the context of Europeanisation and globalisation processes. The national reports are complemented by a separately published comparative study which identifies a number of broader trends and challenges that are shared across several Member States and warrant wider discussion. The research for this publication and the comparative study were carried out within the framework of the ERC funded project 'The Role and Future of National Constitutions in European and Global Governance'. The book is aimed at scholars, researchers, judges and legal advisors working on the interface between national constitutional law and EU and transnational law. The extradition cases are also of interest to scholars and practitioners in the field of criminal law. Anneli Albi is Professor of European Law at the University of Kent, United Kingdom. Samo Bardutzky is Assistant Professor of Constitutional Law at the University of Ljubljana, Slovenia.

The Europeanisation of Party Politics in Malta Jean Claude Cachia, 2023-02-21 This book examines the Europeanisation of party politics in Malta. It evaluates the influence of Europeanisation on the political system which is based on a two party system, polarisation and clientelism. Malta is the smallest European Union (EU) member state which joined the EU in 2004. The road toward membership was fraught with contentious and emotionally charged debates. This book explores the relationship between Maltese political parties and the EU, the politicisation and framing of the European Union by political parties and the impact of the European Union on Malta's political system. The book further discusses more contentious recent events which made headlines at the EU level including the Panama Papers scandals, the Individual Investment Programme and the assassination of journalist Daphne Caruana Galizia. The book will appeal to students, scholars and researchers of political science and international relations interested in a better understanding of electoral studies, Europeanisation
