NETWORKING 2004: Networking Technologies, Services, and Protocols; Performance of Computer and Communication Networks; Mobile and Wireless Communications Nikolas Mitrou, Kimon Kontovasilis, George Rouskas, Ilias Iliadis, Lazaros Merakos, 2004-04-08 This book contains the refereed proceedings of the 3rd International IFIP TC6 Networking Conference Networking 2004 Conferences in the Networking series span the interests of several distinct but related TC6 working groups including Working Groups 6.2, 6.3 and 6.8 Reflecting this the conference was structured with three Special Tracks i Networking Technologies Services and Protocols ii Performance of Computer and Communication Networks and iii Mobile and Wireless Communications However beyond providing a forum for the presentation of high quality search in various complementary aspects of networking the conference was also

targeted to contributing to a unified view of the field and to fostering the interaction and exchange of fruitful ideas between the various related and overlapping specialized subcommunities therein Towards this second objective more than a few conference sessions and thematic sections in this book cut across the Special Tracks along more generic or fundamental concepts Networking 2004 was fortunate to attract very high interest among the community and the conference received 539 submissions from 44 countries in all five continents These figures correspond to a remarkable increase in submissions from the previous very successful events roughly a 156% increase over Networking 2000 and 71% over Networking 2002 and indicate that Networking conferences are progressively becoming established as worldwide reference events in the field

Green Accounting Peter Bartelmus, E.K. Seifert, 2018-01-12 This title was first published in 2003 Our cherished economic indicators of income product consumption and capital fail in taking a long term view of social progress They do not account for environmental deterioration which impairs the quality of life of present and future generations and hence the sustainability of development Greening the conventional national and corporate accounts introduces environmental impacts and costs into these accounts and balances The result is a new compass for steering the economy towards sustainability which may change not only our main measures of economic performance but also the basic tenets of environmental and resource policies This book presents methodological advances and case studies of environmental accounting and discusses their use in environmental management and policies In their introduction the editors provide a critical perspective of historical developments and current debates
