Edited by Alan Carr Gary O Reilly Patricia Noonan Walsh and John McEvoy **Approaches to Assessment that Enhance Learning in Higher Education** Stylianos Hatzipanagos, Rebecca Rochon, 2014-10-10 This book addresses the need to diversify mainstream forms of assessment currently used in Higher Education in order to re establish the focus on the learning process Making assessment central to student learning is about returning to what current research emphasises the primary beneficiary of assessment should be the student To achieve this in the assessment context students and tutors must engage in a process of dialogue and feedback It seems to be widely accepted that assessment succeeds when the learner monitors identifies and then is able to bridge the gap between current learning achievements and agreed goals It is however more questionable whether adequate opportunities are given to students to be active participants in closing what has been termed the loop Contributors to this book have responded in different ways to the challenge of enhancing learning through assessment offering reasons for the lack of focus on learning within assessment processes as well as suggesting possible solutions The chapters demonstrate a balance between innovation and practicality drawing on the underpinning theories The result is both rich in discussion and an extremely useful resource for practitioners This book was originally published as a special issue of *Assessment Evaluation in Higher Education* **Practitioner's Guide to Empirically Based Measures of Anxiety** Martin M. Antony, Susan M. Orsillo, Lizabeth Roemer, 2006-04-10 This volume provides a single resource that contains information on almost all of the measures that have demonstrated usefulness in measuring the presence and severity of anxiety and related disorders It includes reviews of more than 200 instruments for measuring anxiety related constructs in adults These measures are summarized in quick view grids which clinicians will find invaluable Seventy five of the most popular instruments are reprinted and a glossary of frequently used terms is provided *The Wiley Handbook of Obsessive Compulsive Disorders* Jonathan S. Abramowitz, Dean McKay, Eric A. Storch, 2017-06-13 The Wiley Handbook of Obsessive Compulsive Disorders 2 volume set provides a comprehensive reference on the phenomenology epidemiology assessment and treatment of OCD and OCD related conditions throughout the lifespan and across cultures Provides the most complete and up to date information on the highly diverse spectrum of OCD related issues experienced by individuals through the lifespan and cross culturally Covers OCD related conditions including Tourette s syndrome excoriation disorder trichotillomania hoarding disorder body dysmorphic disorder and many others OCD and related conditions present formidable challenges for both research and practice with few studies having moved beyond the most typical contexts and presentations Includes important material on OCD and related conditions in young people and older adults and across a range of cultures with diverse social and religious norms **Evidence-Based Psychotherapy** Daniel David, Steven Jay Lynn, Guy H. Montgomery, 2018-01-02 A Comprehensive Systematic Evaluation of Treatment Effectiveness for Major Psychological Disorders With over 500 types of psychotherapy being practiced in the field today navigating the maze of possible treatments can be daunting for clinicians and researchers as well as for consumers who seek help in obtaining

psychological services Evidence Based Psychotherapy The State of Science and Practice offers a roadmap to identifying the most appropriate and efficacious interventions and provides the most comprehensive review to date of treatments for psychological disorders most often encountered in clinical practice Each chapter applies a rigorous assessment framework to evaluate psychotherapeutic interventions for a specific disorder The authors include the reader in the evaluation scheme by describing both effective and potentially non effective treatments Assessments are based upon the extant research evidence regarding both clinical efficacy and support of underlying theory Ultimately the book seeks to inform treatment planning and enhance therapeutic outcomes Evidence Based Psychotherapy The State of Science and Practice Presents the available scientific research for evidence based psychotherapies commonly practiced today Systematically evaluates theory and intervention efficacy based on the David and Montgomery nine category evaluative framework Covers essential modes of treatment for major disorders including bipolar disorder generalized anxiety disorder PTSD eating disorders alcohol use disorder major depressive disorder phobias and more Includes insightful discussion of clinical practice written by leading experts Clarifies evidence based practice versus evidence based science and offers historical context for the development of the treatments under discussion Evidence Based Psychotherapy The State of Science and Practice is designed to inform treatment choices as well as strengthen critical evaluation In doing so it provides an invaluable resource for both researchers and clinicians
